# MEMORANDUM D8-5-1

Ottawa, January 1, 1998

Ottawa, le 1<sup>er</sup> janvier 1998**SUBJECT****OBJET****MACHINERY PROGRAM****PROGRAMME DE LA MACHINERIE**

This Memorandum outlines and explains the policy and procedures by which relief from the payment of customs duties is granted to machinery and equipment under the Machinery Program for goods imported prior to January 1, 1998. It also outlines and explains the policy and procedures by which an importer may apply for a reduction of the rate of customs duty on goods imported after January 1, 1998, under one of the tariff items listed in Schedule IV.

Le présent mémorandum décrit et explique la politique et les procédures relatives à l'exonération des droits de douane accordée à l'égard de machines et d'appareils dans le cadre du Programme de la machinerie pour les marchandises importées avant le 1<sup>er</sup> janvier 1998. Il décrit et explique également la politique et les procédures selon lesquelles un importateur peut demander une réduction du taux de droits de douane sur les marchandises importées après le 1<sup>er</sup> janvier 1998, en vertu de l'un des numéros tarifaires figurant à la liste IV.

Information concerning relief from the payment of customs duties on certain machinery and equipment, imported prior to January 1, 1998, that are entitled to the benefits of the United States Tariff is contained in Memorandum D8-5-2, *Relief for Machinery and Equipment Entitled to the Benefit of the United States Tariff*.

Les renseignements concernant l'exonération accordée du paiement des droits de douane pour certaines machines ou certains appareils importés avant le 1<sup>er</sup> janvier 1998 et bénéficiant du Tarif des États-Unis sont donnés dans le Mémorandum D8-5-2, *Exonération de droits sur les machines et les appareils admissibles au tarif des États-Unis*.

## GUIDELINES AND GENERAL INFORMATION

### PART I – MACHINERY PROGRAM

#### Introduction

1. This Part will be of interest and benefit to persons who have imported the items listed below prior to January 1, 1998, and who wish to obtain relief from the payment of the customs duties paid on those importations:

(a) machinery or equipment classified under a tariff item listed in Schedule VI of the pre-1998 *Customs Tariff* and parts thereof;

(b) parts for the manufacture of machinery or equipment classified under a tariff item listed in Schedule VI of the pre-1998 *Customs Tariff*;

(c) machinery or equipment for use in the manufacture of parts, accessories and parts thereof for use as original equipment for motor vehicles; or

(d) tooling for the production of parts, accessories and parts thereof for use as original equipment for motor vehicles.

2. This Memorandum will provide information on the different types of relief available under the Machinery Program and how to obtain this relief, including conditions which must be met and penalties for non-compliance with conditions when relief is obtained.

#### Legislative Authorities

3. Division III of the pre-1998 *Customs Tariff* contains the authorities under which relief may be granted for the goods identified in paragraph 1(a) and (b).

4. Division III.1 of the pre-1998 *Customs Tariff* contains the authorities under which relief may be granted for the goods identified in paragraph 1(c) and (d).

## LIGNES DIRECTRICES ET RENSEIGNEMENTS GÉNÉRAUX

### PARTIE I – PROGRAMME DE LA MACHINERIE

#### Introduction

1. Il est intéressant et avantageux pour les personnes qui ont importé les articles mentionnés ci-dessous, avant le 1<sup>er</sup> janvier 1998, et qui veulent obtenir une exonération du paiement des droits de douane sur les marchandises en question, de lire cette partie :

a) des machines ou des appareils classés en vertu d'un numéro tarifaire inscrit à l'annexe VI de l'ancien *Tarif des douanes* (antérieur à 1998), ou des pièces de ces machines ou appareils;

b) des pièces devant servir à la fabrication de machines ou d'appareils classés en vertu d'un numéro tarifaire inscrit à l'annexe VI de l'ancien *Tarif des douanes* (antérieur à 1998);

c) des machines ou des appareils destinés à la fabrication de parties et d'accessoires, ainsi que de leurs parties, pour servir d'équipement d'origine de véhicules automobiles;

d) des outils devant servir à la fabrication de ces éléments et pièces.

2. Le présent mémorandum fournit des renseignements sur les différents types d'exonération accordée dans le cadre du Programme de la machinerie et sur la façon d'obtenir cette exonération, y compris les conditions à remplir et sur les pénalités imposées aux personnes qui ne respectent pas les conditions d'octroi de l'exonération après l'avoir obtenue.

#### Dispositions législatives

3. Les dispositions permettant d'accorder une exonération à l'égard des marchandises décrites aux alinéas 1a) et b) sont énoncées à la section III de l'ancien *Tarif des douanes* (antérieur à 1998).

4. Les dispositions permettant d'accorder une exonération à l'égard des marchandises décrites aux alinéas 1c) et d) sont énoncées à la section III.1 de l'ancien *Tarif des douanes* (antérieur à 1998).

## Types of Relief Under the Program

5. Under the Machinery Program, relief from the payment of customs duties may be obtained in two ways:

(a) under Division III of the pre-1998 *Customs Tariff*, no customs duties are payable on machinery and equipment imported prior to January 1, 1998, which are listed in the "Not Available" column of Schedule I and which are not listed in the "Available" column of the Schedule. The list of machinery and equipment in Schedule I was established by the Minister in accordance with subsection 75(1) of the pre-1998 *Customs Tariff*; and

(b) under Divisions III and III.1 of the pre-1998 *Customs Tariff*, remission may be granted for machinery and equipment imported prior to January 1, 1998, that has not been provided relief under Schedule I.

## Relief by Reference to Schedule I

### Explanation of Schedule I

6. Machinery and equipment described in Schedule I are listed in ascending numerical order and are subdivided by headings identifying major groups or types of machines. For convenience, clarity, and consistency, the headings are formatted from the Harmonized System in the pre-1998 *Customs Tariff*.

7. The tariff items listed in the "Not Available" column of Schedule I are accompanied by abbreviated text from the pre-1998 *Customs Tariff*. These descriptions are intended to reflect the coverage under a particular tariff item in broad terms. The availability status of goods must be determined by ensuring that the goods in question are not listed in the "Available" column of the Schedule. It should also be noted that while every effort has been made to ensure the accuracy of tariff items, this Memorandum is not to be used for tariff classification purposes.

## Types d'exonération accordée dans le cadre du programme

5. Il y a deux types d'exonération des droits de douane accordée dans le cadre du Programme de la machinerie :

a) l'exonération accordée, en vertu de la section III de l'ancien *Tarif des douanes* (antérieur à 1998), à l'égard des machines et des appareils inscrits dans la colonne «non disponible» de la liste I, mais non dans la colonne «disponible» de la même liste, qui est établie par le Ministre en application du paragraphe 75(1) de l'ancien *Tarif des douanes* (antérieur à 1998);

b) les remises peuvent être accordées en vertu des sections III et III.1 de l'ancien *Tarif des douanes* (antérieur à 1998), à l'égard de machines et d'appareils importés avant le 1<sup>er</sup> janvier 1998 et qui ne peuvent bénéficier d'une exonération en vertu de la liste I.

## Exonération en vertu de la liste I

### Explication concernant la liste I

6. Les machines et appareils inscrits sur la liste I y sont classés par ordre numérique et par catégorie correspondant aux principaux groupes ou types de machines. Pour faciliter la consultation de cette liste et en assurer la précision et la cohérence, les dénominations du Système harmonisé figurant dans l'ancien *Tarif des douanes* (antérieur à 1998) sont reprises dans les rubriques.

7. Les numéros tarifaires de la colonne «non disponible» de la liste I sont accompagnés d'une version abrégée du libellé de l'ancien *Tarif des douanes* (antérieur à 1998) qui décrit en termes généraux les marchandises entrant dans la catégorie des produits visés par un numéro tarifaire particulier. Pour savoir si un produit donné répond aux critères de disponibilité, il faut s'assurer qu'il ne figure pas dans la colonne «disponible» de la liste. Il convient également de signaler que même si tout a été fait pour assurer l'exactitude des numéros tarifaires, le présent mémorandum ne doit pas servir à des fins de classement tarifaire.

## Relief for Machinery and Equipment

8. Machinery and equipment classified under a tariff item enumerated in the "Not Available" column of Schedule I may be imported free of any customs duties, provided they are not listed in the "Available" column. Tariff code 8000 is used to identify goods which meet this criterion.

## Relief for Parts of Machinery and Equipment

9. No customs duties are payable in respect of repair and replacement parts for machinery and equipment which meet the "not available" criterion explained in paragraph 8 and which were imported prior to January 1, 1998, when:

(a) they are classified under one of the tariff items listed in Schedule III;

(b) they are not specifically excluded in Schedule II; and

(c) the tariff classification and description of the related machinery or equipment are clearly indicated on the refund claim made for those parts.

10. Tariff code 8999 is used to identify parts as being duty-free at the time of importation.

## Schedule VI Tariff Items not Included in Schedule I

11. It should be noted that even though a tariff item is included in Schedule VI of the pre-1998 *Customs Tariff*, that tariff item may not be enumerated in the "Not Available" column of Schedule I. In such cases, the customs duties may not be refunded under this part of the program using the 8000 tariff code, and tariff code 8999 may not be used for parts. An application for remission must be filed in order to obtain relief from the payment of the applicable customs duties in these cases.

## Exonération sur les machines et appareils

8. Les machines et appareils classés en vertu d'un numéro tarifaire inscrit dans la colonne «non disponible» de la liste I peuvent être importés en franchise des droits de douane s'ils ne sont pas inscrits dans la colonne «disponible» de la même liste. Le code tarifaire 8000 est utilisé pour les marchandises répondant à ce critère.

## Exonération sur les pièces de machines et d'appareils

9. Aucun droit de douane n'est exigé à l'égard des pièces de rechange de machines et d'appareils qui répondent au critère de non-disponibilité expliqué au paragraphe 8 et qui ont été importées avant le 1<sup>er</sup> janvier 1998 :

a) lorsque les pièces en question sont classées en vertu de l'un des numéros tarifaires de la liste III;

b) lorsqu'elles ne sont pas particulièrement exclues dans la liste II;

c) lorsque le classement et la désignation tarifaires de la machine ou de l'appareil connexe sont clairement indiqués sur la demande de remise qui est présentée pour les pièces de rechange en question.

10. Le code tarifaire 8999 est utilisé pour indiquer que des pièces peuvent être admises en franchise au moment de l'importation.

## Numéros tarifaires de l'annexe VI non compris dans la liste I

11. Il convient de signaler que les numéros tarifaires inscrits à l'annexe VI de l'ancien *Tarif des douanes* (antérieur à 1998) ne figurent pas nécessairement dans la colonne «non disponible» de la liste I. Dans ce cas, les marchandises ne peuvent être exonérées en vertu de cette liste et du code tarifaire 8000, et le code tarifaire 8999 ne peut être utilisé pour les pièces de rechange. L'importateur doit présenter une demande de remise pour obtenir une exonération du paiement des droits de douane applicables dans ces cas.

## Questions on Availability of Goods Listed in Schedule I

12. If an importer believes that goods listed in the "Available" column of Schedule I are not available, a machinery remission application should be submitted in accordance with the procedures set out in this Memorandum. Permission to use an 8000 tariff code will not be granted by a regional office if goods are listed in the "Available" column of Schedule I regardless of any information made available to that office.

## Effective Date of Schedule I

13. Unless otherwise specified, the effective date of Schedule I is April 1, 1997.

## Relief by Way of Remission

### How to Obtain an Application for Remission

14. Form K122, *Applications for Duty Remission Under the Machinery Program*, are available from any regional office of Revenue Canada.

### Reasons for Making an Application for Machinery Remission

15. Applications for remission may be submitted:

(a) when the tariff item for the machinery or equipment is included in Schedule VI of the pre-1998 *Customs Tariff*, but is not included in Schedule I;

(b) for production parts which were used in the manufacture of machinery or equipment listed in Schedule VI;

(c) for machinery and equipment used in the manufacture of original equipment parts, accessories or parts thereof for motor vehicles, or used in the manufacture of tooling for the production of such parts and accessories;

## Questions concernant la disponibilité des marchandises inscrites dans la liste I

12. Si l'importateur d'une marchandise qui figure dans la colonne «disponible» de la liste I croit que celle-ci n'est pas disponible, il devra présenter une demande de remise sur les machines selon les modalités décrites dans le présent mémorandum. Aucun bureau régional ne permettra l'utilisation du code tarifaire 8000 pour des marchandises inscrites dans la colonne «disponible » de la liste I, quels que soient les renseignements qui lui sont fournis.

## Date d'entrée en vigueur de la liste I

13. À moins d'indication contraire, la date d'entrée en vigueur de la liste I est le 1<sup>er</sup> avril 1997.

## Exonération sous forme de remise

### Obtention du formulaire de demande de remise

14. Pour obtenir le formulaire K122, *Demande de remise des droits dans le cadre du Programme de remise sur les machines*, l'importateur peut s'adresser à n'importe quel bureau régional de Revenu Canada.

### Circonstances justifiant la présentation d'une demande de remise sur les machines

15. L'importateur peut présenter une demande de remise dans les circonstances suivantes :

a) le numéro tarifaire de la machine ou de l'appareil est inscrit à l'annexe VI de l'ancien *Tarif des douanes* (antérieur à 1998), mais ne figure pas sur la liste I;

b) le produit importé est une pièce de production devant servir à la fabrication de machines ou d'appareils inscrits à l'annexe VI;

c) le produit importé est une machine ou un appareil destiné à la fabrication de parties ou d'accessoires, ainsi que de leurs parties, pour servir d'équipement d'origine de véhicules automobiles, ou un outil devant servir à la fabrication de ces éléments et pièces;

(d) when an importer disagrees with the availability status of machinery and equipment listed in Schedule I and can provide evidence supporting this position; and

(e) when an importer has imported machinery or equipment using an exporter's remission authority and wishes to obtain remission for repair and replacement parts.

### Who May Apply

16. You may submit an application for machinery remission if you have imported machinery or equipment classified under a Schedule VI tariff item prior to January 1, 1998.

### When to Apply

17. The submission of an application for remission will be limited by the statutory time limits contained in sections 77 and 100 of the pre-1998 *Customs Tariff* for obtaining refunds under the Machinery Program.

### How to Apply

18. It is essential that the applicant lists on the application all the goods in detail for which remission is sought. This will expedite the processing of the application. For example, a generic description such as valves or chain saws is not acceptable. These products must be described fully. An acceptable description might read: gasoline powered chain saws over 60 cc, or air operated pressure valves rated at 250 pounds per square inch and over, of series AV 1000. Details supporting an application may include descriptive literature and specifications of the goods being applied for in sufficient detail for tariff classification purposes, clear pictures and diagrams, as well as video presentations which may help in the assessment of the goods compared to similar goods produced in Canada.

d) l'importateur conteste le statut de disponibilité d'une machine ou d'un appareil de la liste I et peut produire des éléments de preuve de sa non-disponibilité;

e) l'importateur a bénéficié d'une autorisation de remise d'un exportateur à l'importation d'une machine ou d'un appareil et aimerait obtenir une remise des droits sur des pièces de rechange importées pour la machine ou l'appareil en question.

### Personnes autorisées à présenter une demande

16. Sont autorisés à présenter une demande de remise sur les machines, les personnes qui ont importé des machines ou appareils en vertu d'un numéro tarifaire de l'annexe VI, avant le 1<sup>er</sup> janvier 1998.

### Délais

17. Pour obtenir une remise en vertu du Programme de la machinerie, l'importateur doit présenter sa demande dans les délais réglementaires qui sont prévus dans les articles 77 à 100 de l'ancien *Tarif des douanes* (antérieur à 1998).

### Modalités de présentation

18. Le demandeur doit inscrire sur sa demande de remise la liste détaillée de toutes les marchandises visées, ce qui permettra d'accélérer le traitement de sa demande. Une description générale, par exemple, telle que soupape ou scie à chaîne n'est pas acceptable et devrait être remplacée par une désignation se lisant à peu près comme suit : scie à chaîne comportant un moteur à essence de plus de 60 cm<sup>3</sup>, ou soupape à commande pneumatique de la série AV 1000 pouvant subir des pressions de 250 livres par pouce carré ou plus. Les demandes doivent être accompagnées de documents et de devis descriptifs donnant suffisamment de détails sur les marchandises visées pour permettre d'en déterminer le classement tarifaire. Elles peuvent contenir des photos et des diagrammes clairs ou des vidéocassettes qui peuvent faciliter la comparaison avec des produits similaires au Canada, aux fins du calcul des droits.

19. A separate application form should be filled out for each distinct type of machinery or equipment. It is not necessary, however, to submit separate applications for different models of the same type of machine. Similarly, requests for remission on a completely integrated production line or system, although comprised of several different machines, should be described on one application.

20. Accessories, attachments, and tools normally associated with a machine which were not included as part of the machine at the time of its original importation and which are not classified under one of the tariff items enumerated in Schedule III, but are included in Schedule VI of the pre-1998 *Customs Tariff*, must be listed on a separate application.

21. Evidence as to the non-availability of the machinery and equipment must be submitted with an application for remission. The statement that "to the best of the importer's knowledge the goods are not available" is not acceptable unless the applicant's efforts to source the goods in Canada are clearly stated.

22. Where an application is made for parts of machinery or equipment previously imported under the Machinery Program, the following information is required:

(a) copies of the original approved application covering the host machine; and

(b) copies of the accounting documentation on which the host machine was imported.

23. Applications lacking sufficient detail or any of the information set out above will be returned to the applicant unprocessed.

24. To facilitate the determination of tariff classification, applications should be accompanied by relevant copies of classification rulings issued by the Department or previous remissions approved for the same goods. This information, while not required, can significantly reduce the time frame for review of an application.

19. Une demande distincte doit être remplie pour chaque type de machines ou d'appareils, mais non pour différents modèles d'un même type de machines. De même, il ne faut utiliser qu'un seul formulaire pour les demandes de remise portant sur un système de production complètement intégré, même si celui-ci comporte plusieurs machines différentes.

20. Le demandeur doit inclure à sa demande distincte la liste des accessoires, des pièces d'équipement et des outils normalement associés à la machine, mais qui n'accompagnaient pas celle-ci au moment de l'importation originale, et qui ne sont pas classées en vertu d'un numéro tarifaire de la liste III, mais dont le numéro tarifaire est inscrit à l'annexe VI de l'ancien *Tarif des douanes* (antérieur à 1998).

21. Des éléments de preuve de la non-disponibilité des machines et d'appareils doivent être présentés à l'appui de la demande de remise. À moins que les efforts déployés par le demandeur pour s'approvisionner au Canada ne soient clairement décrits sur la demande, un simple énoncé de l'importateur indiquant «que les marchandises ne sont pas disponibles pour autant qu'il le sache» n'est pas acceptable.

22. Lorsque la demande porte sur des pièces de machines ou d'appareils déjà importés dans le cadre du Programme de la machinerie, le demandeur doit fournir les renseignements suivants :

a) des copies de la demande originale approuvée pour la machine hôte;

b) des copies des documents de déclaration en détail présentées à l'importation de la machine hôte.

23. Les demandes qui ne sont pas suffisamment détaillées ou qui ne contiennent pas les renseignements mentionnés ci-dessus, ne seront pas traitées et seront retournées au demandeur.

24. Pour faciliter la détermination du classement tarifaire, il est conseillé de joindre à la demande les copies pertinentes des décisions de classement tarifaire du Ministère ou celles des remises antérieures approuvées pour les mêmes marchandises. Même si l'importateur n'est pas tenu de fournir ces renseignements, ceux-ci peuvent considérablement accélérer le traitement de sa demande.

## Effective Date of Approved Applications

25. Applicants should ensure that the earliest date of importation of the goods is clearly identified on the application as retroactivity may be considered for a period of up to four years.

## Parts for Goods on Approved Applications

26. Unless otherwise stated on the approved application, remission of customs duties on machinery and equipment will normally cover subsequent importations of replacement parts for the goods listed on the application.

27. In order for parts to qualify for relief, they must be classified under a tariff item listed in Schedule III and not excluded by Schedule II. The availability of repair and replacement parts is not evaluated separately but is based upon the availability of the machinery or equipment for which they are used. In other words, if a machine is not available, the parts for that machine are also considered to be not available.

28. Repair and replacement parts which are not classified under a tariff item listed in Schedule III, but which are classified under a tariff item listed in Schedule VI of the pre-1998 *Customs Tariff*, qualify for remission only when they are listed separately on the application and are considered to be not available from production in Canada.

## Relief for Production Parts

29. Production parts may be considered for remission under the Machinery Program where a company is registered with the Machinery Program Unit as a producer of machinery and equipment. To qualify for remission, the parts must not be available from production in Canada, and they must be incorporated into machinery and equipment being manufactured in Canada.

## Date d'entrée en vigueur des demandes approuvées

25. Les demandeurs doivent s'assurer que la date d'importation la plus ancienne est clairement indiquée sur la demande, étant donné qu'on peut tenir compte de la rétroactivité jusqu'à concurrence d'une période de quatre ans.

## Pièces de marchandises visées par une demande approuvée

26. Sauf indication contraire sur la demande approuvée, la remise des droits de douane accordée à l'égard de machines ou d'appareils couvre généralement les importations ultérieures de pièces de rechange pour les marchandises énumérées sur la demande.

27. Seules les pièces classées en vertu d'un numéro tarifaire de la liste III et non exclues en vertu de la liste II peuvent bénéficier d'une exonération des droits. La disponibilité des pièces de rechange ne fait pas l'objet d'une évaluation distincte, mais dépend de celle de la machine ou de l'appareil auquel elles sont destinées. En d'autres termes, si la machine n'est pas disponible, les pièces de cette machine sont aussi réputées non disponibles.

28. Pour qu'une remise soit accordée à l'égard de pièces de rechange classées en vertu d'un numéro tarifaire inscrit à l'annexe VI de l'ancien *Tarif des douanes* (antérieur à 1998), mais non sur la liste III, il faut que ces pièces soient mentionnées séparément sur la demande et soient considérées comme des pièces que l'importateur ne peut se procurer à même la production au Canada.

## Exonération de pièces servant à la production

29. Dans le cadre de ce programme, les sociétés inscrites comme fabricant auprès de l'Unité du programme de la machinerie peuvent obtenir une remise à l'égard des pièces servant à la production de machines et d'appareils. Toutefois, seules les pièces qu'elles ne peuvent se procurer à même la production au Canada, et qui sont incorporées à des machines ou à des appareils fabriqués au Canada, peuvent bénéficier d'une telle remise.

## Processing of Applications

30. All applications for machinery remission must be delivered to a regional customs office. A list of offices is contained in Appendix A.

31. All applications meeting the classification criteria and containing the required documentation are forwarded to the Machinery Program Unit in Ottawa for an assessment of the availability of the goods from production in Canada. The findings of this review are then given to the Machinery and Equipment Advisory Sub-Committee.

32. Where the tariff classification of goods on the application is in question, a review may be initiated under subsection 64(c.1) of the pre-1998 version of the *Customs Act*.

33. The Machinery and Equipment Advisory Sub-Committee, which is responsible for advising the Minister of National Revenue as to the eligibility of imported goods for remission, reviews all the information on the application's file. This sub-committee is made up of members from Revenue Canada, including the Director of Trade Incentive Programs who acts as Chair, and the Manager of the Machinery Program Unit who acts as Secretary, and from the Department of Finance and Industry Canada. The recommendation made to the Minister by the sub-committee is based on the information provided by the applicant and the assessment of this information by the Machinery Program officer, as well as knowledge of the industry sector and related policy issues.

34. Once an application has been received in Ottawa, its status may be obtained by calling (613) 954-7100 and providing your application number (from the top right-hand corner of the application).

## Determination of Availability

35. Goods are considered to be available from production in Canada if at least one manufacturer had proven capability to manufacture the goods at the time of their importation.

## Traitement des demandes

30. Toutes les demandes de remise sur les machines doivent être acheminées à un bureau régional des douanes. La liste de ces bureaux figure à l'annexe A.

31. Toutes les demandes répondant aux critères de classement et accompagnées des documents requis sont acheminées à l'Unité du programme de la machinerie à Ottawa pour évaluer si les marchandises sont disponibles à même la production au Canada. Les résultats de cet examen sont ensuite transmis au Sous-comité consultatif en machinerie et équipement.

32. Si le classement tarifaire des marchandises visées par la demande est contesté, on pourra alors procéder au réexamen prévu à l'alinéa 64c.1) de l'ancienne version de la *Loi sur les douanes* (antérieure à 1998).

33. Le Sous-comité consultatif en machinerie et équipement, qui est chargé de déterminer si les marchandises importées remplissent les conditions d'octroi de la remise et d'en aviser le ministre du Revenu national, examine tous les renseignements qui ont été versés au dossier de la demande. Ce sous-comité est constitué de représentants de Revenu Canada comprenant le directeur des Programmes d'encouragements commerciaux, qui le préside, et le gestionnaire de l'Unité du programme de la machinerie, qui en est le secrétaire, ainsi que des représentants du ministère des Finances et de l'Industrie Canada. La recommandation que le sous-comité présente au ministre est fondée sur les renseignements fournis par le demandeur, sur l'évaluation de ces renseignements par l'agent du Programme de la machinerie et sur la connaissance du secteur d'activités visé et des politiques connexes.

34. Pour obtenir des renseignements sur l'état d'une demande acheminée à Ottawa, il suffit de composer le numéro (613) 954-7100 et de fournir le numéro de la demande inscrit dans le coin supérieur droit.

## Détermination de la disponibilité

35. Les marchandises sont considérées comme disponibles à même la production au Canada s'il est établi qu'au moins un fabricant avait la capacité de produire ces marchandises au moment de l'importation.

36. Proven capability to produce machinery or equipment in Canada is deemed to exist if:

(a) a manufacturer has, within its normal operational framework, the full range of technical and physical capabilities necessary for production in Canada of machinery and equipment reasonably equivalent to the machinery and equipment in question; and

(b) has demonstrated a production competence reasonably equivalent to that required to produce such machinery and equipment.

#### Minister's Authorization

37. Remission under the Machinery Program is authorized by the Minister of National Revenue. When goods are recommended for remission of customs duties, an approved application will be returned to the applicant containing an authorization number and specifying the effective period for the remission. When remission is not granted, the application is returned to the applicant with a list of Canadian producers for the goods in question.

#### Information for Importers Continuing to Import Goods After 1997

38. Where goods for which an application for machinery remission is being submitted will continue to be imported on or after January 1, 1998, the applicant may include a covering letter requesting that consideration be given under section 82 of the *Customs Tariff* as set out in Part II, "Reduction of Rates of Customs Duty." However, the applicant should be aware that such requests will be reviewed according to the criteria outlined in paragraph 56 of Part II. Approval of an application for remission as outlined in Part I, "Machinery Program, Relief by Way of Remission," will not automatically mean that the goods will qualify under the provisions of section 82 of the *Customs Tariff* for a reduction in the rate of customs duty in 1998.

36. La capacité de produire certaines machines ou certains appareils au Canada est réputée exister dans les circonstances suivantes :

a) le fabricant dispose, dans le cadre habituel de son exploitation, des installations techniques et matérielles nécessaires à la production au Canada de machines et d'appareils qui sont sensiblement comparables aux machines et appareils visés;

b) le fabricant a établi qu'il avait une capacité de production sensiblement comparable à celle qui est nécessaire pour produire les machines et appareils visés.

#### Autorisation du Ministre

37. Les remises accordées dans le cadre du Programme de la machinerie sont autorisées par le ministre du Revenu national. Lorsqu'il est recommandé d'accorder une remise des droits de douane à l'égard de marchandises, une demande de remise approuvée contenant un numéro d'autorisation et précisant la période d'effet de la remise est retournée au demandeur. S'il est recommandé de ne pas accorder de remise, la demande est retournée au demandeur, accompagnée d'une liste des fabricants canadiens des marchandises en question.

#### Renseignements à l'intention des importateurs qui importent toujours des marchandises après 1997

38. Lorsque des marchandises en regard desquelles une demande de remise sur les machines est présentée continueront d'être importées le 1<sup>er</sup> janvier 1998 ou après cette date, le demandeur peut inclure une lettre explicative demandant que cette demande soit considérée en vertu de l'article 82 du *Tarif des douanes*, tel qu'il est indiqué à la partie II, «Réduction des taux de droit de douane». Toutefois, le demandeur doit être conscient du fait que de telles demandes seront examinées en regard du paragraphe 56 de la partie II. L'approbation d'une demande de remise, tel qu'il est indiqué à la partie I, «Programme de la machinerie (Exonération sous forme de remise)», ne signifie pas automatiquement que les marchandises sont admissibles en vertu des dispositions de l'article 82 du *Tarif des douanes* en ce qui concerne une réduction du taux de droits de douane en 1998.

## Information Regarding Tariff Classification

39. Applicants wishing to review or discuss tariff classifications pertaining to individual applications should direct questions to the Director, Trade Administration Services, in the regional office closest to their place of business.

### Re-determination of the Tariff Classification of Goods on an Application for Remission

40. When an application for machinery remission on goods previously imported is received by the Machinery Program Unit in Ottawa and there is a question as to the accuracy of the classification of the goods, a review of that classification will be undertaken. When, in the opinion of the Deputy Minister, the tariff classification of the goods is incorrect, a re-determination of the classification may be done under subsection 64(c.1) of the pre-1998 version of the *Customs Act*. If the importer does not agree with this decision, the regular provisions of the *Customs Act* relating to the re-determination process will apply with regard to the filing of an appeal.

41. When a re-determination of the tariff classification is made under subsection 64(c.1) and the importer successfully appeals this decision, the application for remission will be re-instated and a review of the availability of the goods will be conducted.

42. In cases where the normal four-year time limit for refunds has expired as a result of the appeal of a decision under subsection 64(c.1), regulations made pursuant to section 100 of the pre-1998 *Customs Tariff* are in place which provide that a refund may be submitted for up to one year from the date an appeal is finalized. This is intended to allow time for the availability review to take place and, should this result in the granting of remission, for refund claims to be prepared.

## Renseignements concernant le classement tarifaire

39. Les demandeurs qui veulent discuter du classement tarifaire visant des demandes particulières doivent s'adresser au directeur des Services de l'administration des politiques commerciales, au bureau régional le plus près de leur lieu d'affaires.

### Révision ou réexamen du classement tarifaire de marchandises visées par une demande de remise

40. Lorsqu'une demande de remise pour la machinerie à l'égard des marchandises préalablement importées est reçue par l'Unité du programme de la machinerie à Ottawa, et que l'exactitude du classement tarifaire est en cause, un examen de ce classement tarifaire doit avoir lieu. Lorsque le sous-ministre est d'avis que le classement tarifaire des marchandises est inexact, un réexamen du classement peut être effectué en vertu du paragraphe 64c.1) de l'ancienne version de la *Loi sur les douanes* (antérieure à 1998). Si l'importateur conteste cette décision, les dispositions habituelles de la *Loi sur les douanes* relativement au processus de révision et de réexamen s'appliqueront en ce qui a trait à l'interjection d'un appel.

41. Lorsqu'un réexamen du classement tarifaire est effectué en vertu du paragraphe 64c.1) et que l'importateur en appelle et obtient gain de cause, on rétablit la demande de remise et on fait l'examen de la disponibilité des marchandises.

42. Lorsque le délai habituel de remboursement de quatre ans a expiré par suite de l'appel d'une décision en vertu du paragraphe 64c.1), les règlements pris conformément à l'article 100 de l'ancien *Tarif des douanes* (antérieur à 1998) prévoient qu'un remboursement peut être effectué jusqu'à un an suivant la date de la décision de l'appel. Cela donne assez de temps pour que l'examen de disponibilité puisse avoir lieu et, lorsque la remise est accordée, pour que la demande de remboursement soit préparée.

## Preparation of Refund Claims

43. Where customs duties have been paid on goods in respect of which relief would have been granted by reference to Schedule I, or remission has been granted by way of application under Division III or III.1 of the pre-1998 *Custom Tariff*, refund claims are to be submitted on Form B2, *Canada Customs – Adjustment Request*.

44. Where a refund is being sought by way of reference to Schedule I, Form B2 must be filed under the authority of section 100 of the pre-1998 *Customs Tariff* within four years of the date of release of the goods in question.

45. Where a refund is being sought by way of reference to a remission authority, Form B2 must be filed under section 77 of the pre-1998 *Customs Tariff* within four years of the date of accounting for those goods.

46. Where an importer is requesting a re-determination of the classification of goods under section 60 of the pre-1998 version of the *Customs Act* and at the same time requesting a refund under the Machinery Program, Form B2 must be submitted within the time limit prescribed by section 60 of the *Customs Act*.

47. In order to facilitate data processing requirements, it is important that the special authority field be completed properly. All information required is shown on the approved application. The following is an example of the information and the sequence in which it must be shown in the special authority field as well as an example of how the code will appear upon completion:

(a) the first two digits identify the year in which the application was approved and appear on the approved application as part of the remission authorization number. Only the last two digits of the year are to be used (i.e., 1995 becomes 95);

(b) the next digits identify the special code number (i.e., DRA 1995-0012 becomes 95-0012);

## Établissement des demandes de remboursement

43. Lorsque des droits de douane ont été payés sur des marchandises à l'égard desquelles une remise des droits aurait été accordée en vertu de la liste I, ou qu'une remise a été accordée par suite d'une demande en vertu des sections III ou III.1 de l'ancien *Tarif des douanes* (antérieur à 1998), des demandes de remboursement doivent être présentées à l'aide du formulaire B2, *Douanes Canada – Demande de rajustement*.

44. Lorsqu'un remboursement est demandé en vertu de la liste I, le formulaire B2 doit être présenté en vertu de l'article 100 de l'ancien *Tarif des douanes* (antérieur à 1998) dans les quatre ans suivant la date de mainlevée des marchandises en cause.

45. Lorsqu'un remboursement est demandé en vertu d'une autorisation de remise, le formulaire B2 doit être présenté en vertu de l'article 77 de l'ancien *Tarif des douanes* (antérieur à 1998) dans les quatre ans suivant la date de déclaration en détail des marchandises en cause.

46. Lorsque l'importateur demande la révision du classement des marchandises en vertu de l'article 60 de l'ancienne version de la *Loi sur les douanes* (antérieure à 1998), en même temps qu'un remboursement en vertu du Programme de la machinerie, le formulaire B2 doit être présenté dans les délais prescrits à l'article 60 de la *Loi sur les douanes*.

47. Afin de faciliter le traitement des données, il est important que la zone autorisation spéciale soit correctement remplie. Tous les renseignements requis figurent sur la demande approuvée. Ce qui suit est un exemple des renseignements exigés et de l'ordre dans lequel ils doivent figurer dans la zone autorisation spéciale, ainsi qu'un exemple montrant comment le code sera indiqué une fois le document rempli :

a) Les deux premiers chiffres désignent l'année où la demande a été approuvée et font partie du numéro d'autorisation de remise sur la demande approuvée. Seuls les deux derniers chiffres de l'année sont utilisés (p. ex. 1995 devient 95);

b) les chiffres suivants indiquent le numéro de code spécial (p. ex. LED 1995-0012 devient 95-0012);

(c) the machinery sub-committee number also forms part of the authorization number (i.e., 1995-0012 MB 321 should be shown as 95-0012-321);

(d) approved applications which do not show a line number on the application are to have the digits 01 shown as part of the special authority code (e.g., 95-0012-321-01) unless they have been advised otherwise. Line numbers appearing on new or previously approved applications must be used as part of the special authority code (e.g., 02, 03, 04); and

(e) if machines or other articles named in the approved application are imported, the code to be shown is 1. If parts covered by the provision for "replacement parts therefor" in the Notice of Remission at the bottom of the application are imported, the code is 0. The completed special authority field for a machine specifically named on the application would be 95-0012-321-01-1, or 95-0012-321-01-0 for parts of that machine.

c) le numéro du sous-comité en machinerie fait aussi partie du numéro d'autorisation de remise (p. ex. 1995-0012 MB 321 devient 95-0012-321);

d) sur les demandes approuvées où aucun numéro de ligne ne figure, les chiffres 01 doivent faire partie du code d'autorisation spéciale (p. ex. 95-0012-321-01), sauf avis contraire. Les numéros de ligne figurant sur les demandes, nouvelles ou préalablement approuvées, doivent faire partie du code d'autorisation spéciale (p. ex. 02, 03, 04);

e) si des machines ou d'autres articles mentionnés dans la demande approuvée sont importés, le code indiqué doit être le chiffre 1. Si des pièces visées par la disposition relative «aux pièces de rechange» dans l'avis de remise au bas de la demande sont importées, le code est alors 0. La zone autorisation spéciale remplie pour une machine spécifiquement désignée sur la demande indiquerait 95-0012-321-01-1 ou 95-0012-321-01-0 pour des pièces de rechange de cette machine.

#### Interest

48. Interest is payable in the case of refund claims made under section 100 of the pre-1998 *Customs Tariff* from the 91st day after the refund request is made until the time the refund is paid. No interest is payable in the case of refund claims made under section 77 of the pre-1998 *Customs Tariff*.

#### Intérêt

48. L'intérêt est payable dans le cas des demandes de remboursement faites en vertu de l'article 100 de l'ancien *Tarif des douanes* (antérieur à 1998) à compter du 91<sup>e</sup> jour suivant la date de présentation de la demande de remboursement et jusqu'à ce que le remboursement soit versé. Aucun intérêt n'est payable dans le cas de demandes de remboursement faites en vertu de l'article 77 de l'ancien *Tarif des douanes* (antérieur à 1998).

#### Non-Compliance With the Program

49. When it is determined that goods imported under the Machinery Program do not qualify for relief, the importer is liable to pay the duties owing in accordance with section 103 of the pre-1998 *Customs Tariff*. In addition, interest at the specified rate will be payable on the amount to be repaid, pursuant to subsection 106(2) of the pre-1998 *Customs Tariff*, for the period beginning on the first day after the liability occurred to the day the amount is paid in full.

#### Inobservation des règles régissant le programme

49. Lorsqu'il est déterminé que des marchandises importées en vertu du Programme de la machinerie ne sont pas admissibles à l'exonération, l'importateur doit payer les droits dus conformément à l'article 103 de l'ancien *Tarif des douanes* (antérieur à 1998). En outre, un intérêt au taux déterminé sera payable sur le montant à rembourser, conformément au paragraphe 106(2) de l'ancien *Tarif des douanes* (antérieur à 1998), pour la période commençant le lendemain de l'échéance du montant et se terminant le jour de son paiement intégral.

## Penalties for Non-Compliance

50. Where the duties referred to in paragraph 49 are not paid within 90 days, the person liable to pay those duties will also be liable to pay a penalty equal to the total of:

- (a) an amount equal to 5% of the duties payable; and
- (b) an amount equal to the 1% of the amount payable multiplied by the number of months the amount is outstanding (to a limit of 12 months).

51. For example, if the amount of duties owing was \$1,000 for a period of 10 months, the penalty would be  $(1,000 \times .05) + (1,000 \times .01 \times 10) = \$150$ .

52. Any future non-compliance by the same person within three years would make that person liable to a penalty of:

- (a) an amount equal to 10% of the duties payable; and
- (b) an amount equal to the 2% of the amount payable multiplied by the number of months the amount is outstanding (to a limit of 20 months).

53. Using the same example as above, this would result in a penalty of \$300.

## PART II – REDUCTION OF RATES OF CUSTOMS DUTY

### Introduction

54. This Part will be of interest and benefit to persons who are or will be importing goods on or after January 1, 1998, which meet the three criteria set out in paragraph 56 below, and who wish to request a reduction in the rate of the customs duties paid or payable on those importations.

## Pénalités pour l'inobservation des règles

50. Lorsque les droits auxquels on fait allusion dans le paragraphe 49 ne sont pas payés dans un délai de 90 jours, la personne qui doit payer ces droits sera également passible d'une pénalité correspondant au total :

- a) d'un montant égal à 5 % des droits à payer;
- b) d'un montant égal à 1 % du montant à payer multiplié par le nombre de mois durant lesquels le montant est dû (jusqu'à concurrence de 12 mois).

51. Si, par exemple, le total des droits dus est de 1 000 \$ pour une période de 10 mois, la pénalité serait de  $(1000 \times 0,05) + (1000 \times 0,01 \times 10) = 150$  \$.

52. Toute inobservation future de la part de la même personne au cours d'une période de trois ans rendrait cette personne passible d'une pénalité égale à :

- a) 10 % des droits dus;
- b) 2 % du montant dû, multiplié par le nombre de mois durant lesquels le montant est dû (jusqu'à concurrence de 20 mois).

53. En reprenant l'exemple précédent, la pénalité serait de 300 \$.

## PARTIE II – RÉDUCTION DES TAUX DE DROIT DE DOUANE

### Introduction

54. Il est intéressant et avantageux pour les personnes qui ont importé ou qui importeront, le 1<sup>er</sup> janvier 1998 ou après cette date, des articles répondant aux trois critères mentionnés au paragraphe 56 ci-dessous et qui veulent obtenir une réduction des droits de douane payés ou à payer sur les marchandises en question, de lire cette partie.

## Legislative Authorities

55. Section 82 of the *Customs Tariff* contains the authority under which the Governor in Council may, on the recommendation of the Minister of Finance, by Order, reduce the rate of customs duty applicable to goods imported into Canada and used in the production of other goods or the provision of services.

## Relief Criteria

56. There are three criteria which must be met in order for goods to qualify for relief. These are:

- (a) that the goods must be classified under a tariff item listed in Schedule IV;
- (b) that the goods must not be available from Canadian production; and
- (c) that the goods must be used in the production of another good or the provision of a service.

57. For greater clarity, the determination of whether a good is used in the production of another good will be made using the definition of "process" provided in section 80 of the *Customs Tariff*. Therefore, if a good will be used in the adjustment, alteration, assembly, manufacture, modification, production, or repair of goods it will be considered to be a good "used in the production of another good" as set out in paragraph 56(c).

58. For the purpose of establishing the availability of goods from Canadian production, the following criteria will be used:

- (a) whether a producer has, within its normal operational framework, the full range of technical and physical capabilities necessary for the production in Canada of goods reasonably equivalent to the goods described in the application for relief; and
- (b) whether that producer has actually produced such a good so as to demonstrate production competence reasonably equivalent to that required to produce the goods in question.

## Dispositions législatives

55. Le gouverneur en conseil peut, en vertu de l'article 82 du *Tarif des douanes* et sur la recommandation du ministre des Finances, accorder par décret une réduction des taux de droit applicables à des marchandises importées au Canada qui servent à la production d'autres marchandises ou à la prestation de services.

## Critères d'exonération

56. Les trois critères auxquels doivent répondre les marchandises pour être admissibles à une exonération sont les suivants :

- a) les marchandises classées en vertu d'un numéro tarifaire inscrit à la liste IV;
- b) les marchandises qui ne sont pas disponibles pour la production au Canada;
- c) les marchandises utilisées dans la production d'une autre marchandise ou destinées à la prestation d'un service.

57. Pour une plus grande clarté, la définition du terme «transformation» prévue à l'article 80 du *Tarif des douanes* sert à déterminer si une marchandise est utilisée dans la production d'une autre marchandise. Par conséquent, si une marchandise est destinée à être utilisée pour l'ajustement, la modification, l'assemblage, la fabrication, la production ou la réparation de marchandises, elle est réputée être une marchandise utilisée dans la production d'une autre marchandise tel qu'il est indiqué au paragraphe 56(c).

58. Pour établir si une marchandise est disponible à même la production au Canada, les critères suivants seront utilisés :

- a) le fabricant dispose, dans le cadre habituel de son exploitation, des installations techniques et matérielles nécessaires à la production au Canada de marchandises qui sont sensiblement comparables aux marchandises visées par la demande d'exonération des droits;
- b) le fabricant a établi qu'il avait une capacité de production sensiblement comparable à celle qui est nécessaire pour produire les marchandises visées.

59. A producer, for the purposes of establishing availability of goods from production in Canada, is defined as a person that undertakes a process as defined in section 80 of the *Customs Tariff*.

#### Who May Apply

60. You may submit a request for relief from the payment of customs duties on goods if you are:

- (a) the importer of the goods into Canada; or
- (b) an end-user of goods in Canada.

#### What Constitutes a Request for Relief

61. Requests for relief may be submitted in the form of a letter to the Secretary, Interdepartmental Remissions Committee (IRC), Trade Incentive Programs, 555 MacKenzie Avenue, Ottawa ON K1A 0L5. However, please note that the information set out in paragraphs 63 to 66 below must accompany this letter.

#### When to Apply

62. It is to the applicant's advantage to apply well in advance of the anticipated importation of the goods in order to benefit from any granted relief at the time of importation of the goods. However, relief may be provided retroactively. Where a retroactive Order is made, a refund of any customs duties paid may be obtained as outlined in paragraphs 77 and 78.

#### How to Apply

63. It is essential that the applicant provide a detailed description of the goods for which a reduction in the rate of customs duty is sought with the request. This should include descriptive literature and specifications of the goods in sufficient detail for tariff classification purposes and provide details of the capabilities or range of operation of the goods, e.g., clear pictures and diagrams or video presentations.

59. Pour établir si une marchandise est disponible à même la production au Canada, la définition d'un producteur doit être celle d'une personne qui entreprend de transformer une marchandise conformément à l'article 80 du *Tarif des douanes*.

#### Personnes autorisées à présenter une demande

60. Sont autorisées à présenter une demande d'exonération du paiement des droits de douane sur des marchandises les personnes suivantes :

- a) les importateurs de marchandises au Canada;
- b) les utilisateurs ultimes des marchandises au Canada.

#### Demande sous forme de lettre

61. Le demandeur peut présenter sa demande d'exonération sous forme de lettre adressée aux Programmes d'encouragement commercial, Comité interministériel des remises (CIR), 555, avenue MacKenzie, Ottawa ON K1A 0L5. Il convient toutefois de noter que les renseignements fournis dans les paragraphes 63 à 66 ci-dessous doivent accompagner cette lettre.

#### Délais

62. C'est à l'avantage du demandeur de présenter sa demande longtemps avant l'importation des marchandises s'il veut bénéficier d'une exonération accordée au moment de l'importation. L'exonération peut, toutefois, être accordée rétroactivement. Lorsqu'un décret rétroactif est pris, l'importateur peut obtenir le remboursement des droits payés, tel qu'il est indiqué aux paragraphes 77 et 78.

#### Modalités de présentation

63. Le demandeur doit inscrire sur sa demande la description détaillée des marchandises pour lesquelles il demande une réduction du taux de droit de douane. Les demandes doivent être accompagnées de documents et de devis descriptifs donnant une suffisamment de détails sur les marchandises visées pour permettre d'en déterminer le classement tarifaire et d'en évaluer les capacités ou les divers usages, p. ex. au moyen de

This information will facilitate the assessment of the goods compared to similar goods produced in Canada and will expedite the processing of the request.

64. A separate request must be submitted for each distinct type of goods, i.e., goods which fall under different tariff classifications. A request submitted covering goods which fall under different tariff classifications will be returned to the applicant unprocessed requesting that it be properly completed.

65. Information relating to the efforts made to source the goods from Canadian production must be submitted with the request. The statement to the effect that "to the best of the person's knowledge the goods are not available" is not acceptable.

66. Information relating to the purpose for which the goods are being imported into Canada must be provided with the request to ensure that the requirements set out in paragraph 56(c) relating to the use of the goods will be met.

67. Requests lacking sufficient detail, or any of the information set out above, will be returned to the applicant unprocessed explaining what the applicant must do prior to resubmitting the request.

68. To facilitate the determination of tariff classification, requests should be accompanied by relevant copies of National Customs Rulings issued by the Department, if available. This information, while not required, can significantly reduce the time frame for review of a request.

### Processing of Requests

69. All requests for a reduction in a rate of customs duty must be delivered to the Secretary of the IRC at the address provided in paragraph 61. Once a letter of request is received by the IRC Secretary, a copy will be returned to the applicant bearing a reference number. The status of the request may be obtained by calling (613) 954-7100 and providing this reference number to the control clerk.

photos et de diagrammes clairs ou des vidéocassettes qui faciliteront la comparaison avec des produits similaires au Canada et permettront d'accélérer le traitement de la demande.

64. Une demande distincte doit être remplie pour chaque type de marchandises, c'est-à-dire des marchandises en fonction de différents numéros de classement tarifaire. Les demandes sur lesquelles figurent des marchandises correspondant à divers numéros de classement tarifaire ne seront pas traitées et seront retournées au demandeur.

65. La demande doit indiquer les efforts déployés par le demandeur pour s'approvisionner au Canada. Un simple énoncé de l'importateur indiquant «que les marchandises ne sont pas disponibles pour autant qu'il le sache» n'est pas acceptable.

66. La demande doit indiquer l'usage pour lequel les marchandises sont importées au Canada, afin de satisfaire aux exigences énoncées au paragraphe 56c) sur l'utilisation des marchandises.

67. Les demandes qui ne sont pas suffisamment détaillées ou qui ne contiennent pas les renseignements mentionnés ci-dessus ne seront pas traitées et seront retournées au demandeur en lui expliquant ce qu'il doit faire avant de soumettre à nouveau la demande.

68. Pour faciliter la détermination du classement tarifaire, il est conseillé de joindre à la demande les copies pertinentes des décisions nationales des douanes rendues par le Ministère, le cas échéant. Bien que l'importateur ne soit pas tenu de fournir ces renseignements, ceux-ci peuvent considérablement accélérer le traitement de sa demande.

### Traitement des demandes

69. Toutes les demandes de réduction du taux de droit doivent être envoyées au Secrétaire du CIR, à l'adresse fournie au paragraphe 61. Dès réception de la demande, une copie portant un numéro de demande est retournée au demandeur. Pour obtenir des renseignements sur l'état d'une demande, il suffit de composer le numéro (613) 954-7100 et de fournir le numéro de la demande au préposé.

70. If it is determined that the goods for which a request has been submitted are not classified under a tariff item listed in Schedule IV, as required in paragraph 56(a), the request will be rejected.

71. All requests which meet the criteria set out in paragraph 56(a) and are accompanied by the necessary documentation will be assessed to determine if the criteria in paragraph 56(b) are met. If it is determined that the goods are available, the applicant will be advised that the request has been rejected and a list of Canadian producers will be provided.

72. Paragraph 56(c) sets out the use criteria for the goods. If sufficient information is not provided relating to the intended use of the goods, the request will be returned to the applicant unprocessed requesting such information.

73. If all the criteria in paragraph 56 are met, the request will be submitted to the IRC for review.

74. The IRC, which is made up of members from Revenue Canada and the Department of Finance and Industry Canada, will make a recommendation to the Minister of Finance.

#### Minister's Recommendation

75. The Minister of Finance is responsible for making recommendations to the Governor in Council for Orders under section 82 of the *Customs Tariff* to amend the List of Tariff Provisions and the "F" Staging List to reduce the rates of customs duty. When an Order has been approved, the applicant will be advised of the registration number and the effective date for the rate reduction by the IRC Secretary.

76. When an Order is made which reduces the rate of duty for specific goods, the Schedule to the *Customs Tariff* will be amended and all importers of goods of the same tariff classification will have equal access to the benefits of the reduced rate.

70. S'il est établi que les marchandises faisant l'objet d'une demande ne sont pas classées dans un numéro tarifaire de la liste IV, tel que requis au paragraphe 56a), la demande est refusée.

71. Toutes les demandes répondant aux critères énoncés au paragraphe 56a) et accompagnées des documents requis sont examinées pour déterminer si elles sont conformes aux critères du paragraphe 3b). S'il est établi que les marchandises sont disponibles, le demandeur est avisé que sa demande est refusée, et une liste des fabricants canadiens lui est fournie.

72. Le paragraphe 56c) énonce les critères d'utilisation des marchandises. Les demandes qui ne contiennent pas suffisamment de détails sur l'utilisation prévue des marchandises ne seront pas traitées et seront retournées au demandeur pour que celui-ci fournisse les renseignements requis.

73. Les demandes qui satisfont aux critères du paragraphe 56 seront envoyées au CIR pour examen.

74. Le CIR, qui est constitué de représentants de Revenu Canada et du ministère des Finances et Industrie Canada, fera ensuite une recommandation au ministre des Finances.

#### Recommandation du ministre

75. Le ministre des Finances est chargé de faire des recommandations au gouverneur en conseil pour la prise de décrets en vertu de l'article 82 du *Tarif des douanes*, en vue de modifier la liste des dispositions tarifaires et le tableau des échelonnements «F» pour réduire les taux de droit de douane. Lorsqu'un décret est approuvé, le secrétaire du CIR fournit au demandeur le numéro d'enregistrement correspondant et la date d'entrée en vigueur de la réduction tarifaire.

76. Lorsqu'il s'agit d'un décret réduisant le taux de droit pour des marchandises spécifiques, l'annexe du *Tarif des douanes* est modifiée, et tous les importateurs de marchandises classées dans le même numéro tarifaire peuvent se prévaloir du taux de droit réduit.

## Preparation of Refund Claims

77. Where customs duties have been paid on goods in respect of which a reduced rate of customs duty has been effected, refund claims are to be submitted on Form B2, *Canada Customs – Adjustment Request*.

78. The Form B2 must be filed under the authority of paragraph 74 (1)(g) of the *Customs Act* within four years of the date of accounting of the goods in question.

## Interest

79. Interest is payable from the first day after the day the duties were paid until the time the refund is paid.

## Information for Importers of Goods Prior to January 1, 1998

80. Where goods for which a request for relief is being submitted under section 82 of the *Customs Tariff* were also imported prior to January 1, 1998, the procedures outlined in paragraph 38 of Part I, "Machinery Program, Relief by Way of Remission," should be followed if an importer also wishes to apply for remission under the Machinery Program for those goods.

## Établissement des demandes de remboursement

77. Lorsque des droits de douane ont été payés sur des marchandises à l'égard desquelles une réduction de taux de droit a été accordée, des demandes de remboursement doivent être présentées à l'aide du formulaire B2, *Douanes Canada – Demande de rajustement*.

78. Le formulaire B2 doit être présenté en vertu de l'alinéa 74(1)g) de la *Loi sur les douanes* dans les quatre ans suivant la date de déclaration en détail des marchandises en cause.

## Intérêt

79. L'intérêt est payable à compter du premier jour suivant la date du paiement des droits jusqu'à ce que le remboursement soit versé.

Renseignements à l'intention des importateurs qui ont importé des marchandises avant le 1<sup>er</sup> janvier 1998

80. Lorsque des marchandises en regard desquelles une demande d'exonération est présentée en vertu de l'article 82 du *Tarif des douanes* ont également été importées avant le 1<sup>er</sup> janvier 1998, les procédures indiquées au paragraphe 38 de la partie I, «Programme de la machinerie (Exonération sous forme de remise)» doivent être suivies si un importateur veut aussi faire une demande de remise en vertu du Programme de la machinerie en ce qui concerne ces marchandises.

## Legislation

### CUSTOMS TARIFF

The following provisions of the pre-1998 *Customs Tariff* are relevant to Part I.

#### DIVISION III

#### MACHINERY AND EQUIPMENT

73. In this Division, except for the purposes of section 75.1, "machinery and equipment" means goods that are classified under a tariff item enumerated in Schedule VI and, where applicable, under a code enumerated in that Schedule with respect to that tariff item.

74.(1) No customs duties are payable in respect of machinery and equipment that, at the time the machinery and equipment is accounted for under section 32 of the *Customs Act*, is included on the list of machinery and equipment established by the Minister pursuant to subsection 75(1).

(2) The amount of the excise taxes payable in respect of the machinery and equipment referred to in subsection (1) shall be determined as if the duty paid value of the machinery and equipment were the value for duty of the machinery and equipment.

(3) The amount of the goods and services tax payable in respect of the machinery and equipment referred to in subsection (1) shall be determined as if the value of the goods, for the purposes of section 215 of the *Excise Tax Act*, were the value for duty of the machinery and equipment.

75.(1) The Minister may establish a list of machinery and equipment that, in the opinion of the Minister, having regard to the criteria mentioned in subsection (3), is not available from production in Canada.

(2) The Minister shall cause a list established under subsection (1) and every addition thereto and deletion therefrom to be published in the *Canada Gazette* within sixty days after the establishment, addition or deletion, and a list, addition or deletion so published shall be judicially noticed.

## Législation

### TARIF DES DOUANES

Les dispositions suivantes de l'ancien *Tarif des douanes* (antérieur à 1998) s'appliquent à la partie I.

#### SECTION III

#### MACHINES ET APPAREILS

73. Dans la présente section, sauf pour l'application de l'article 75.1, «machines et appareils» s'entend des marchandises classées à un numéro tarifaire inscrit à l'annexe VI et, le cas échéant, à un code afférent à ce numéro tarifaire inscrit à cette annexe.

74.(1) Aucun droit de douane n'est exigible sur les machines et appareils qui, à la date de leur déclaration en détail en application de l'article 32 de la *Loi sur les douanes*, sont inscrits sur la liste de machines et appareils établie par le ministre en application du paragraphe 75(1).

(2) Le montant des taxes d'accise exigibles sur les machines et appareils visés au paragraphe (1) est déterminé comme si la valeur à l'acquitté des machines et appareils était leur valeur en douane.

(3) Le montant de la taxe sur les produits et services exigible sur les machines et appareils visés au paragraphe (1) est déterminé comme si la valeur des produits pour l'application de l'article 215 de la *Loi sur la taxe d'accise* était leur valeur en douane.

75.(1) Le ministre peut établir, compte tenu des critères visés au paragraphe (3), une liste de machines et appareils qui ne sont pas produits au Canada.

(2) Le ministre fait publier la liste établie en vertu du paragraphe (1), ainsi que toute inscription ou radiation, dans la *Gazette du Canada* dans les soixante jours suivant l'établissement de la liste, de l'inscription ou de la radiation; la liste, une inscription ou une radiation ainsi publiées sont admises d'office.

(3) For the purposes of subsection (1), the Minister shall have regard to the following criteria:

(a) whether a manufacturer has, within his normal operational framework, the full range of technical and physical capabilities necessary for production in Canada of machinery and equipment reasonably equivalent to the relevant machinery and equipment; and

(b) whether a Canadian manufacturer has so produced machinery and equipment as to demonstrate a production competence reasonably equivalent to that required to produce the relevant machinery and equipment.

75.1(1) No customs duties are payable in respect of machinery and equipment that, at the time the machinery and equipment is accounted for under section 32 of the *Customs Act*, is

(a) included on the list of machinery and equipment established by the Minister pursuant to subsection (3); and

(b) entitled to the benefit of the *United States Tariff*.

(2) The amount of the excise taxes payable in respect of the machinery and equipment referred to in subsection (1) shall be determined as if the duty paid value of the machinery and equipment were the value for duty of the machinery and equipment.

(2.1) The amount of the goods and services tax payable in respect of the machinery and equipment referred to in subsection (1) shall be determined as if the value of the goods, for the purposes of section 215 of the *Excise Tax Act*, were the value for duty of the machinery and equipment.

(3) The Minister shall, for the purpose of implementing paragraph 6 of Article 401 of the *Canada-United States Free Trade Agreement*, establish a list of machinery and equipment in accordance with Appendix 401.6 thereof.

(4) The Minister may add machinery and equipment to the list established under subsection (3).

(3) Pour l'application du paragraphe (1), le ministre tient compte des critères suivants :

a) le fabricant dispose, dans le cadre habituel de son exploitation, des installations techniques et matérielles propres à la production au Canada de machines et appareils qui sont sensiblement comparables aux machines et appareils visés;

b) le fabricant canadien a ainsi produit des machines et appareils de manière à établir une capacité de production sensiblement comparable à celle qui est nécessaire pour produire les machines et appareils visés.

75.1(1) Aucun droit de douane n'est exigible sur les machines et appareils qui, à la date de la déclaration en détail faite conformément à l'article 32 de la *Loi sur les douanes*, sont inscrits sur la liste de machines et appareils établie par le ministre en application du paragraphe (3) et bénéficient du tarif des États-Unis.

(2) Le montant des taxes d'accise exigibles sur les machines et appareils visés au paragraphe (1) est déterminé comme si la valeur à l'acquitté des machines et appareils était leur valeur en douane.

(2.1) Le montant de la taxe sur les produits et services exigible sur les machines et appareils visés au paragraphe (1) est déterminé comme si la valeur des produits pour l'application de l'article 215 de la *Loi sur la taxe d'accise* était leur valeur en douane.

(3) Le ministre établit, pour l'application du paragraphe (6) de l'article 401 de l'*Accord de libre-échange Canada-États-Unis*, une liste de machines et appareils conformément à l'annexe 401.6 de cet accord.

(4) Le ministre peut ajouter des machines et appareils à la liste établie en vertu du paragraphe (3).

76.(1) Where an application for remission is made in accordance with subsection (4) in respect of machinery and equipment not included on the list established pursuant to subsection 75(1) and the Minister is of the opinion, having regard to the criteria mentioned in subsection 75(3), that the machinery and equipment is not available from production in Canada, the Minister may remit in respect of the machinery and equipment

(a) the customs duties that, but for this subsection, would be payable in respect of the machinery and equipment, and

(b) that portion of the excise taxes that, but for this subsection, would be payable in respect of the machinery and equipment in an amount equal to the difference between the amount of the excise taxes payable in respect of the machinery and equipment and the amount of excise taxes that would be payable in respect of the machinery and equipment if the duty paid value used to calculate the excise taxes so payable were the value for duty used to calculate the customs duties so payable,

and, notwithstanding Part I and the *Excise Tax Act*, the amounts of the customs duties and excise taxes payable in respect of the machinery and equipment shall be reduced in accordance with paragraphs (a) and (b).

(2) Subject to subsection (3), remissions under subsection (1) may be conditional or unconditional and may be granted regardless of whether in a particular case any liability to pay the duties has arisen.

(3) Where the Minister is of the opinion, having regard to the criteria mentioned in subsection 75(3), that machinery and equipment in respect of which remission has been granted under subsection (1) has become available from production in Canada, the Minister may revoke the remission and, notwithstanding the terms and conditions of the remission, it shall cease to apply to machinery and equipment accounted for under section 32 of the *Customs Act* after the effective date of the revocation.

(4) An application for remission must be accompanied by evidence satisfactory to the Minister that, having regard to the criteria mentioned in subsection 75(3), the machinery and equipment is not available from production in Canada.

76.(1) Sur demande présentée conformément au paragraphe (4), le ministre peut, s'il juge, compte tenu des critères prévus au paragraphe 75(3), que les machines et appareils qui font l'objet de la demande ne sont pas produits au Canada, remettre sur ces machines ou appareils :

a) les droits de douane qui, sans le présent paragraphe, seraient payables sur les machines et appareils;

b) la fraction des taxes d'accise qui, sans le présent paragraphe, serait payable sur les machines et appareils d'un montant égal à la différence entre le montant des taxes d'accise payable sur les machines et appareils et le montant des taxes d'accise qui serait payable sur ceux-ci, si la valeur à l'acquitté utilisée pour le calcul des taxes d'accise ainsi payables était la valeur en douane utilisée pour le calcul des droits de douane payables.

Malgré la partie I et la *Loi sur la taxe d'accise*, les montants des droits de douane et des taxes d'accise payables sur les machines et appareils sont réduits conformément aux alinéas a) et b).

(2) Sous réserve du paragraphe (3), les remises prévues au paragraphe (1) peuvent être conditionnelles ou absolues et peuvent, sous réserve du paragraphe (3), être accordées indépendamment de l'obligation de payer les droits dans un cas particulier.

(3) Le ministre peut, s'il juge, compte tenu des critères prévus au paragraphe 75(3), que les machines et appareils qui font l'objet d'une remise accordée en vertu du paragraphe (1) sont produits au Canada, annuler celle-ci et, malgré ses modalités, elle cesse de s'appliquer aux machines et appareils déclarés en détail, après la prise d'effet de l'annulation, en application de l'article 32 de la *Loi sur les douanes*.

(4) Les demandes sont assorties des justificatifs que le ministre juge suffisant pour établir, compte tenu des critères prévus au paragraphe 75(3), que les machines et appareils ne sont pas produits au Canada.

77.(1) A refund shall be granted of the portion of the customs duties or excise taxes described in paragraph 76(1)(a) or (b) if

(a) a remission of the portion is made under subsection 76(1);

(b) the portion of the duties was paid; and

(c) an application for refund is made in accordance with subsection (2).

(2) For the purposes of paragraph (1)(c), an application for refund must be

(a) supported by such evidence as the Minister may require; and

(b) made in the prescribed form within four years after the machinery and equipment in respect of which it is made is accounted for under section 32 of the *Customs Act* or, where another time is prescribed, within that other time.

(3) The Governor in Council may make regulations prescribing, for the purposes of subsection (2), the manner of making an application and the time within which it must be made.

#### 78. Repealed.

79.(1) Where a remission is granted under section 76, the Minister shall issue to the person who applied for the remission a certificate bearing a number to be used to identify the machinery and equipment.

(2) Where a remission granted under section 76 ceases to have effect or is revoked pursuant to subsection 76(3), the Minister may cancel the certificate issued under subsection (1) in respect of the remission.

(3) Machinery and equipment in respect of which remission is granted under section 76 may be released without payment of the portions of the duties remitted thereby if the number mentioned in the certificate issued under subsection (1) is disclosed when the machinery and equipment is accounted for under section 32 of the *Customs Act* and the certificate is in force at that time.

77.(1) Est accordé un remboursement de la fraction des droits de douane ou des taxes d'accise visée aux alinéas 76(1)a) ou b) si, à la fois :

a) remise de la fraction est accordée en vertu du paragraphe 76(1);

b) la fraction des droits a été payée;

c) une demande est présentée conformément au paragraphe (2).

(2) Pour l'application de l'alinéa (1)c), les demandes sont :

a) assorties des justificatifs exigés par le ministre;

b) présentées sur le formulaire réglementaire dans les quatre ans suivant la déclaration en détail, en application de l'article 32 de la *Loi sur les douanes*, des machines ou appareils qui en font l'objet ou, le cas échéant, dans le délai prévu par règlement.

(3) Le gouverneur en conseil peut procéder à toute mesure réglementaire mentionnée au paragraphe (2).

#### 78. Abrogé.

79.(1) En accordant une remise en vertu de l'article 76, le ministre délivre au demandeur de la remise un certificat portant un numéro devant servir à identifier les machines et appareils.

(2) Le ministre peut annuler le certificat délivré en vertu du paragraphe (1) visant une remise prévue à l'article 76 qui cesse d'avoir effet ou qui a été annulée en application du paragraphe 76(3).

(3) Les marchandises et appareils faisant l'objet de la remise prévue à l'article 76 peuvent être dédouanés sans le paiement de la fraction des droits qui a été remise, si le numéro indiqué dans le certificat délivré en vertu du paragraphe (1) est déclaré à la date de la déclaration en détail des machines et appareils en application de l'article 32 de la *Loi sur les douanes* et si le certificat est valide à cette date.

## DIVISION III.1

AUTOMOTIVE MACHINERY  
AND EQUIPMENT

79.1 In this Division,

“automotive machinery and equipment” means machinery and equipment for the manufacture of

(a) parts, accessories and parts thereof for use as original equipment for motor vehicles, or

(b) tooling for the production of such parts, accessories and parts thereof;

“motor vehicles” means vehicles that, if imported, would be classified under heading No. 87.02, 87.03 or 87.04 or subheading No. 8701.20, 8705.10, 8705.20, 8705.30 or 8705.40.

79.2(1) Where an application for remission is made in accordance with subsection (4) and the Minister is of the opinion, having regard to the criteria mentioned in section 79.3, that the automotive machinery and equipment in respect of which the application is made is not available from production in Canada, the Minister may remit

(a) the customs duties that, but for this subsection, would be payable in respect of the automotive machinery and equipment, and

(b) that portion of the excise taxes that, but for this subsection, would be payable in respect of the automotive machinery and equipment in an amount equal to the difference between the amount of the excise taxes payable in respect of the automotive machinery and equipment and the amount of excise taxes that would be payable in respect of the automotive machinery and equipment if the duty paid value used to calculate the excise taxes so payable were the value for duty used to calculate the customs duties so payable,

and, notwithstanding Part I and the *Excise Tax Act*, the amounts of the customs duties and excise taxes payable in respect of the automotive machinery and equipment shall be reduced in accordance with paragraphs (a) and (b).

## SECTION III.1

MACHINES ET APPAREILS  
DE CONSTRUCTION AUTOMOBILES

79.1 Les définitions qui suivent s'appliquent à la présente section.

«machines et appareils» Machines et appareils destinés à la fabrication soit d'éléments pièces d'équipement et accessoires d'origine, ainsi que de leurs pièces, dans des véhicules automobiles, soit d'outils devant servir à la fabrication de ces éléments et pièces.

«véhicules automobiles» Les véhicules qui, s'ils étaient importés, seraient classés soit dans les positions 87.02, 87.03 ou 87.04, soit dans les sous-positions 8701.20, 8705.10, 8705.20, 8705.30 ou 8705.40.

79.2(1) Sur demande présentée conformément au paragraphe (4), le ministre peut, s'il juge, compte tenu des critères prévus à l'article 79.3, que les machines et appareils qui font l'objet de la demande ne sont pas produits au Canada, remettre sur ces machines ou appareils :

a) les droits de douane qui, sans le présent paragraphe, seraient payables sur ceux-ci;

b) la fraction des taxes d'accise qui, sans le présent paragraphe, serait payable sur les machines et appareils d'un montant égal à la différence entre le montant des taxes d'accise payable sur les machines et appareils et le montant des taxes d'accise qui serait payable sur ceux-ci, si la valeur à l'acquitté utilisée pour le calcul des taxes d'accise ainsi payables était la valeur en douane utilisée pour le calcul des droits de douane payables.

Malgré la partie I et la *Loi sur la taxe d'accise*, les montants des droits de douane et des taxes d'accise payables sur les machines et appareils sont réduits conformément aux alinéas a) et b).

(2) Subject to subsection (3), remissions under subsection (1) may be conditional or unconditional and may be granted regardless of whether in a particular case any liability to pay the duties has arisen.

(3) Where the Minister is of the opinion, having regard to the criteria mentioned in section 79.3, that automotive machinery and equipment in respect of which remission has been granted under subsection (1) has become available from production in Canada, the Minister may revoke the remission and, notwithstanding the terms and conditions of the remission, it shall cease to apply to automotive machinery and equipment accounted for under section 32 of the *Customs Act* after the effective date of the revocation.

(4) An application for remission must be accompanied by evidence satisfactory to the Minister that, having regard to the criteria mentioned in section 79.3, the automotive machinery and equipment is not available from production in Canada.

79.3 For the purposes of section 79.2, the Minister shall have regard to the following criteria:

(a) whether a manufacturer has, within his normal operational framework, the full range of technical and physical capabilities necessary for production in Canada of automotive machinery and equipment reasonably equivalent to the relevant automotive machinery and equipment;

(b) whether a Canadian manufacturer has so produced automotive machinery and equipment as to demonstrate a production competence reasonably equivalent to that required to produce the relevant automotive machinery and equipment; and

(c) whether an order for the relevant automotive machinery and equipment, if placed with a Canadian manufacturer at the earliest practicable time, could reasonably be or have been met within the required or actual delivery time.

79.4(1) A remission of customs duties or excise taxes under section 79.2 shall be granted by way of a refund if

(a) the duties to be remitted have been paid; and

(b) an application for refund is made in accordance with subsection (2).

(2) Sous réserve du paragraphe (3), les remises prévues au paragraphe (1) peuvent être conditionnelles ou absolues et être accordées indépendamment de l'obligation de payer les droits dans un cas particulier.

(3) Le ministre peut, s'il juge, compte tenu des critères prévus à l'article 79.3, que les machines et appareils qui font l'objet d'une remise accordée en vertu du paragraphe (1) sont produits au Canada, annuler celle-ci et, malgré ses modalités, elle cesse de s'appliquer aux machines et appareils déclarés en détail, après la prise d'effet de l'annulation, en application de l'article 32 de la *Loi sur les douanes*.

(4) Les demandes sont assorties des justificatifs que le ministre juge suffisants pour établir, compte tenu des critères prévus à l'article 79.3, que les machines et appareils ne sont pas produits au Canada.

79.3 Pour l'application de l'article 79.2, le ministre tient compte des critères suivants :

a) le fabricant dispose, dans le cadre habituel de son exploitation, des installations techniques et matérielles propres à la production au Canada de machines et appareils qui sont sensiblement comparables aux machines et appareils visés;

b) le fabricant canadien a ainsi produit des machines et appareils de manière à établir une capacité de production sensiblement comparable à celle qui est nécessaire pour produire les machines et appareils visés;

c) le fabricant canadien pourrait ou aurait pu normalement respecter les délais de livraison fixés, si la commande de machines et d'appareils visés lui est ou avait été signifiée dans les meilleurs délais.

79.4(1) Remise des droits de douane ou des taxes d'accise est accordée, au titre de l'article 79.2 sous forme de remboursement si, à la fois :

a) les droits en cause ont été payés;

b) une demande de remboursement est présentée conformément au paragraphe (2).

(2) For the purposes of paragraph (1)(b), an application for refund must be

(a) supported by such evidence as the Minister may require; and

(b) made in the prescribed form within four years after the automotive machinery and equipment in respect of which it is made is accounted for under section 32 of the *Customs Act* or, where another time is prescribed, within that other time.

(3) The Governor in Council may make regulations prescribing, for the purposes of subsection (2), the manner of making an application and the time within which it must be made.

79.5(1) Where a remission is granted under section 79.2, the Minister shall issue to the person who applied for the remission a certificate bearing a number to be used to identify the automotive machinery and equipment.

(2) Where a remission granted under section 79.2 ceases to have effect or is revoked pursuant to subsection 79.2(3), the Minister may cancel the certificate issued under subsection (1) in respect of the remission.

(3) Automotive machinery and equipment in respect of which remission is granted under section 79.2 may be released without payment of the duties remitted thereby if the number mentioned in the certificate issued under subsection (1) is disclosed when the automotive machinery and equipment is accounted for under section 32 of the *Customs Act* and the certificate is in force at that time.

## DIVISION VI

### ADDITIONAL RELIEF

100.(1) Subject to subsection (2) and to regulations made under subsection (5), a refund or drawback shall be granted of the whole or a portion of duties, if

(a) relief, a refund or drawback of the whole or the portion of duties is required to be granted or would have otherwise been granted by Division III, III.1, IV or V or the duties were not payable under section 74 or 75.1.

(2) Pour l'application de l'alinéa (1)b), les demandes sont :

a) assorties des justificatifs exigés par le ministre;

b) présentées sur le formulaire réglementaire dans les quatre ans suivant la déclaration en détail, en application de l'article 32 de la *Loi sur les douanes*, des machines ou appareils qui en font l'objet ou, le cas échéant dans le délai prévu par règlement.

(3) Le gouverneur en conseil peut procéder à toute mesure réglementaire mentionnée au paragraphe (2).

79.5(1) En accordant une remise en vertu de l'article 79.2, le ministre délivre au demandeur de la remise un certificat portant un numéro devant servir à identifier les machines et appareils.

(2) Le ministre peut annuler le certificat délivré en vertu du paragraphe (1) et visant une remise qui cesse d'avoir effet ou qui a été annulée en application du paragraphe 79.2(3).

(3) Les machines et appareils faisant l'objet de la remise prévue à l'article 79.2 peuvent être dédouanés sans le paiement des droits qui ont été remis, si le numéro indiqué dans le certificat délivré en vertu du paragraphe (1) est déclaré à la date de la déclaration en détail des machines et appareils en application de l'article 32 de la *Loi sur les douanes* et si le certificat est valide à cette date.

## SECTION VI

### AUTRES FORMES D'EXONÉRATION

100.(1) Sous réserve du paragraphe (2) et des règlements d'application du paragraphe (5), est accordé un remboursement ou un drawback de la totalité ou d'une fraction des droits, si, à la fois :

a) est prévu l'octroi, obligatoire ou non, d'une exonération, d'un remboursement ou d'un drawback de la totalité ou d'une fraction des droits en application des sections III, III.1, IV ou V, ou si les droits n'étaient pas exigibles en application des articles 74 ou 75.1.

(3) For the purposes of subsection (1), an application must

(a) be supported by such evidence as the Minister may require;

(b) be made by a prescribed person or by a person within a prescribed class of persons;

(c) be made in the prescribed form within four years, or, where another time is prescribed, within that other time, after the goods in respect of which it is made are released; and

(d) where the goods have not been exported or deemed exported for the purposes of relief granted under section 80, disclose the number borne by the certificate issued under section 80.1.

103.(1) Where relief from or remission of duties is granted under this Act, other than section 82, or remission of duties is granted under section 23 of the *Financial Administration Act* and a condition to which the relief or remission is subject is not complied with, the person who did not comply with the condition shall, within ninety days after the day of the failure to comply,

(a) report the failure to comply to an officer at a customs office; and

(b) unless that person can provide evidence satisfactory to the Minister that

(i) at the time of the failure to comply with the condition, a refund or drawback would otherwise have been granted if duties had been paid, or

(ii) the goods qualify in some other manner for relief or remission under this Act or the *Financial Administration Act*,

pay to Her Majesty in right of Canada an amount equal to the amount of the duties in respect of which the relief or remission was granted, which amount shall, for the purposes of the *Customs Act*, be deemed to be an amount owing to Her Majesty in right of Canada pursuant to that Act.

(3) Pour l'application du paragraphe (1), les demandes :

a) sont assorties des justificatifs exigés par le ministre;

b) sont présentées par les personnes visées par règlement ou les personnes d'une catégorie réglementaire;

c) sont présentées selon les modalités réglementaires dans les quatre ans ou, le cas échéant, dans le délai prévu par règlement, suivant le dédouanement des marchandises;

d) portent, pour l'application de l'article 80 dans les cas où les marchandises n'ont pas été exportées ou ne sont pas présumées exportées, le numéro indiqué sur le certificat délivré conformément à l'article 80.1.

103.(1) En cas d'exonération ou de remise accordée en application de la présente loi, sauf l'article 82, ou de remise accordée en application de l'article 23 de la *Loi sur la gestion des finances publiques*, alors qu'une condition à laquelle l'exonération ou la remise est assujettie n'est pas observée, la personne qui n'a pas observé la condition est tenue, dans les quatre-vingt-dix jours suivant la survenance du cas :

a) de le déclarer à l'agent, dans un bureau de douane;

b) de payer à Sa Majesté du chef du Canada les droits faisant l'objet de l'exonération ou de la remise le montant de ces droits étant, pour l'application de la *Loi sur les douanes*, réputé dû à Sa Majesté du chef du Canada au titre de cette loi –, sauf si la personne peut produire avec sa déclaration les justificatifs que le ministre juge suffisants pour établir un des faits suivants :

(i) au moment de l'inobservation de la condition, un drawback ou un remboursement aurait par ailleurs été accordé si les droits avaient été payés,

(ii) les marchandises sont admissibles autrement à l'exonération ou à la remise prévue par la présente loi ou à la remise prévue par la *Loi sur la gestion des finances publiques*.

(2.1) Where, under section 74 or 75.1, duties were not paid on machinery or equipment and the machinery or equipment is not included on the list established by the Minister under subsection 75(1) or 75.1(3), the person who accounted for the goods under section 32 of the *Customs Act* shall, within ninety days after the date of accounting pay to Her Majesty in right of Canada an amount equal to the duties not paid, which amount shall, for the purposes of the *Customs Act*, be deemed to be an amount owing to Her Majesty in right of Canada under that Act.

(3) The Governor in Council may make regulations prescribing

(a) time limits for the application of subsection (1) and the goods or classes of goods in respect of which, or the circumstances in which, such limits shall apply; and

(b) the circumstances in which certain goods would be exempted from the operation of subsection (1), and the goods or classes of goods in respect of which, and the length of time for which and the conditions under which such exemptions shall apply.

106.(2) Any person who is liable under subsection 103(1), (2) or (2.1) to pay an amount (other than an amount in respect of duty levied under the *Special Import Measures Act*) shall pay, in addition to the amount, interest at the specified rate for the period beginning on the day that is ninety days before the liability was incurred and ending on the day the amount has been paid in full, calculated on the outstanding balance of the amount.

(2.1) Dans le cas où, en application des articles 74 ou 75.1, les droits n'ont pas été payés sur des machines et appareils qui ne figurent pas sur la liste établie par le ministre en application des paragraphes 75(1) ou 75.1(3), la personne qui les a déclarés en détail en application de l'article 32 de la *Loi sur les douanes* est tenue, dans les quatre-vingt-dix jours suivant cette déclaration, de payer à Sa Majesté du chef du Canada les droits qui n'ont pas été payés; le montant de ces droits est réputé dû à sa Majesté du chef du Canada au titre de cette loi.

(3) Le gouverneur en conseil peut, par règlement :

a) soit fixer le délai d'application du paragraphe (1) et désigner les marchandises ou les catégories de celles-ci, soit déterminer les circonstances, visées par le délai;

b) déterminer les circonstances dans lesquelles certaines marchandises seraient exemptées de l'application du paragraphe (1), désigner les catégories de marchandises ainsi exemptées et fixer la durée, ainsi que les conditions, de l'exemption.

106.(2) Quiconque est tenu, en application des paragraphes 103(1), (2) ou (2.1), de payer un montant (sauf un montant afférent aux droits imposés en application de la *Loi sur les mesures spéciales d'importation*) paie, en plus de ce montant, des intérêts au taux déterminé, calculés sur les arriérés pour la période commençant quatre-vingt-dix jours avant le jour où le montant devient dû et se terminant le jour de son paiement intégral.

### DIVISION I

### SECTION 1

#### REDUCTION OF RATES OF CUSTOMS DUTY

#### RÉDUCTION DES TAUX

82.(1) The Governor in Council may, on the recommendation of the Minister, by order, amend the List of Tariff Provisions and the “F” Staging List in respect of goods used in the production of other goods

82.(1) Sur recommandation du ministre, le gouverneur en conseil peut, par décret, modifier la liste des dispositions tarifaires et le tableau des échelonnements en ce qui concerne les marchandises

or the provision of services, subject to any conditions and for any period that may be set out in the order.

(2) At any time before the expiration of an order made under subsection (1), the Governor in Council may, on the recommendation of the Minister, by subsequent order, repeal or amend the order subject to any conditions and for any period that may be set out in the subsequent order.

(3) A rate specified in an order made under subsection (1) or (2) may not exceed the rate of customs duty that would have been set out in the List of Tariff Provisions or in the "F" Staging List in respect of those goods if no order were made under this section.

(4) An order made under subsection (1) or (2) may, if it so provides, be retroactive and have effect in respect of a period before it is made, but no such order may have effect in respect of a period before this section comes into force.

(5) An order made under subsection (2) that increases a rate of customs duty may not have effect in respect of a period before the date the order is published in the *Canada Gazette*.

(6) The Governor in Council may, on the recommendation of the Minister, make regulations for carrying out the purposes of this section.

### CUSTOMS ACT

The following provisions of the *Customs Act* are relevant to Part II.

#### REFUND

74.(1) Subject to this section, section 75 and any regulations made under section 81, a person who paid duties on any imported goods may, in accordance with subsection (3), apply for a refund of all or part of those

utilisées pour la production d'autres marchandises ou la fourniture de services, sous réserve, le cas échéant, des conditions ou de la durée d'application précisées dans le décret.

(2) Sur recommandation du ministre, le gouverneur en conseil peut, par décret, modifier ou abroger, avant son expiration, un décret pris en application du paragraphe (1) et fixer les conditions ou la durée d'application de la modification ou de l'abrogation.

(3) Le taux précisé dans un décret pris en application des paragraphes (1) ou (2) ne peut excéder celui qui figurerait à la liste des dispositions tarifaires ou au tableau des échelonnements à l'égard des marchandises visées, en l'absence d'un décret pris en application du présent article.

(4) Les décrets pris en application des paragraphes (1) ou (2) peuvent, s'ils comportent une disposition en ce sens, avoir un effet rétroactif et s'appliquer à une période antérieure à la date de leur prise, mais non antérieure à la date d'entrée en vigueur du présent article.

(5) Les décrets pris en application du paragraphe (2), prévoyant l'augmentation d'un taux, ne peuvent s'appliquer à une période antérieure à la date de leur publication dans la *Gazette du Canada*.

(6) Sur recommandation du ministre, le gouverneur en conseil peut prendre des règlements pour l'application du présent article.

### LOI SUR LES DOUANES

Les dispositions suivantes de la *Loi sur les douanes* s'appliquent à la partie II.

#### REMBOURSEMENT

74.(1) Sous réserve des autres dispositions du présent article, de l'article 75 et des règlements d'application de l'article 81, le demandeur qui a payé des droits sur des marchandises importées peut,

duties, and the Minister may grant to that person a refund of all or part of those duties, if

(g) the duties were overpaid or paid in error for any reason that may be prescribed.

The following provisions of the *Customs Act* are relevant to both Part I and II.

### ***Penalties and Interest***

109.11(1) In this section, "duties payable" means duties that have not been paid but does not include, for the purposes of calculating a penalty under subsection (2) or (3) in respect of a failure to comply under subsection 118(1) or (2), 121(1) or 122(1) of the *Customs Tariff*, an amount in respect of duty levied under the *Special Import Measures Act*.

(2) Every person who fails to comply with section 31, 32.2 or 80.2 of this Act or subsection 95(1), 118(1) or (2), 121(1) or 122(1) of the *Customs Tariff* is liable to a penalty equal to the total of

(a) an amount equal to 5% of the duties payable; and

(b) an amount equal to the product obtained when 1% of the duties payable that were unpaid when the amount was required to be paid, is multiplied by the number of complete months, not exceeding 12, from the day on which the amount was required to be paid to the day on which the amount was paid.

(3) Every person who fails to comply with section 31, 32.2 or 80.2 of this Act or subsection 95(1), 118(1) or (2), 121(1) or 122(1) of the *Customs Tariff* and by whom, at the time of failure, a penalty was payable under this subsection or subsection (2) in respect of a failure to comply in any of the three preceding years is liable to a penalty equal to the total of

conformément au paragraphe (3), faire une demande de remboursement de tout ou partie de ces droits et le ministre peut accorder à la personne qui, conformément à la présente loi, a payé des droits sur des marchandises importées le remboursement total ou partiel de ces droits dans les cas suivants :

g) les droits ont été payés en trop ou par erreur dans les autres cas prévus par règlement.

Les dispositions suivantes de la *Loi sur les douanes* s'appliquent aux parties I et II.

### ***Pénalités et intérêts***

109.11(1) Pour l'application du présent article, «droits payables» s'entend des droits qui n'ont pas été payés, à l'exclusion, pour le calcul de la pénalité prévue aux paragraphes (2) ou (3) pour contravention des paragraphes 118(1) ou (2), 121(1) ou 122(1) du *Tarif des douanes*, du montant afférent aux droits imposés en application de la *Loi sur les mesures spéciales d'importation*.

(2) Quiconque omet de se conformer aux articles 31, 32.2 ou 80.2 de la présente loi ou aux paragraphes 95(1), 118(1) ou (2), 121(1) ou 122(1) du *Tarif des douanes* est passible d'une pénalité égale au total des montants suivants :

a) 5 % de la somme des droits payables;

b) le produit de la multiplication de 1 % de la somme des droits payables par le nombre de mois entiers, à concurrence de 12, compris dans la période commençant à la date où la somme est exigible et se terminant le jour où la somme est payée.

(3) Toute personne qui omet de se conformer aux articles 31, 32.2 ou 80.2 de la présente loi ou aux paragraphes 95(1), 118(1) ou (2), 121(1) ou 122(1) du *Tarif des douanes* et à l'égard de laquelle, au moment du défaut, une cotisation pour pénalité a déjà été établie en application du paragraphe (2) ou du présent paragraphe pour défaut de se conformer à ces dispositions au cours d'une des trois années précédentes est passible d'une pénalité égale au total des droits suivants :

(a) an amount equal to 10% of the duties payable, and

(b) an amount equal to the product obtained when 2% of the duties payable that were unpaid when the amount was required to be paid, is multiplied by the number of complete months, not exceeding 20, from the day on which the amount was required to be paid to the day on which the amount was paid.

### GOODS IMPORTED AND EXPORTED REFUND AND DRAWBACK REGULATIONS

The following provisions of the regulations are relevant to Part I.

#### *Time Limits for Applying for Refund*

18.(1) Subject to subsection (2), for the purposes of paragraphs 77(2)(b) and 79.4(2)(b) of the Act, where the Deputy Minister makes a re-determination under paragraph 64(c.1) of the *Customs Act*, an application for refund must be made within the later of four years after the goods are accounted for under section 32 of that Act and one year after the date of that re-determination.

(2) Where an appeal from a re-determination referred to in subsection (1) is made and the Deputy Minister makes a re-determination under paragraph 64(d) of the *Customs Act*, an application for refund must be made within the later of four years after the goods are accounted for under section 32 of that Act and one year after that re-determination.

a) 10 % de la somme des droits payables;

b) le produit de la multiplication de 2 % de la somme des droits payables par le nombre de mois entiers, à concurrence de 20, compris dans la période commençant à la date où la somme est exigible et se terminant le jour où la somme est payée.

### RÈGLEMENT SUR LE REMBOURSEMENT ET LE DRAWBACK RELATIFS AUX MARCHANDISES IMPORTÉES ET EXPORTÉES

Les dispositions suivantes du règlement s'appliquent à la partie I.

#### *Délai de présentation*

18.(1) Sous réserve du paragraphe (2) et pour l'application des alinéas 77(2)b) et 79.4(2)b) de la Loi, lorsque le sous-ministre procède à un réexamen aux termes de l'alinéa 64c.1) de la *Loi sur les douanes*, une demande de remboursement doit être présentée dans l'année suivant la date du réexamen ou dans les quatre ans suivant la déclaration en détail des marchandises en application de l'article 32 de cette loi, selon celui de ces délais qui expire après l'autre.

(2) Lorsqu'un appel est interjeté du réexamen visé au paragraphe (1) et que le sous-ministre procède à un réexamen aux termes de l'alinéa 64d) de la *Loi sur les douanes*, une demande de remboursement doit être présentée dans l'année suivant la date de ce réexamen ou dans les quatre ans suivant la déclaration en détail des marchandises en application de l'article 32 de cette loi, selon celui de ces délais qui expire après l'autre.

**SUBJECT**

**RELIEF FOR MACHINERY AND EQUIPMENT  
ENTITLED TO THE BENEFIT OF  
THE UNITED STATES TARIFF**

This Memorandum outlines and explains the policy and the procedures by which relief is granted in respect of machinery and equipment that is entitled to the benefits of the United States Tariff and included on the list of machinery and equipment established by the Minister pursuant to subsection 75.1(3) of the *Customs Tariff*.

Machinery and equipment not entitled to relief under subsection 75.1(3), either because it does not appear on the list appended to this Memorandum or because it does not originate in the United States, may be eligible for relief under the Machinery Program, established pursuant to Division III of the *Customs Tariff*. Information concerning the Machinery Program is contained in Memorandum D8-5-1.

**Legislative Provisions**

The following provisions of the *Customs Tariff* are relevant to this Memorandum and reflect consequential amendments to the *Customs Tariff* which will become effective with the implementation of the goods and services tax legislation (Bill C-62 as passed by the House of Commons, April 10, 1990) on January 1, 1991.

**OBJET**

**EXONÉRATION DE DROITS SUR  
LES MACHINES ET LES APPAREILS ADMISSIBLES  
AU TARIF DES ÉTATS-UNIS**

Le présent mémorandum énonce et explique la politique et les procédures selon lesquelles l'exonération de droits est accordée sur les machines et les appareils qui bénéficient du Tarif des États-Unis et qui sont inscrits sur la liste établie par le Ministre en application du paragraphe 75.1(3) du *Tarif des douanes*.

Les machines et les appareils non admissibles à l'exonération aux termes du paragraphe 75.1(3), du fait qu'ils ne figurent pas sur la liste annexée à ce mémorandum, ou qu'ils ne sont pas originaires des États-Unis, peuvent donner droit à un dégrèvement en vertu du Programme sur la machinerie institué aux termes de la section III du *Tarif des douanes*. Les détails du Programme sur la machinerie sont expliqués dans le mémorandum D8-5-1.

**Dispositions législatives**

Les dispositions suivantes du *Tarif des douanes* se rapportent au présent mémorandum et tiennent compte des modifications consécutives au *Tarif des douanes* qui entreront en vigueur au moment de la mise en oeuvre de la législation relative à la taxe sur les produits et services (projet de loi C-62 adopté par la Chambre des communes le 10 avril 1990) le 1<sup>er</sup> janvier 1991.

## Division III

## Machinery and Equipment

75.1 (1) No customs duties are payable in respect of machinery and equipment that, at the time the machinery and equipment is accounted for under section 32 of the *Customs Act*, is

- (a) included on the list of machinery and equipment established by the Minister pursuant to subsection (3); and
- (b) entitled to the benefit of the United States Tariff.

(2) The amount of the excise taxes payable in respect of the machinery and equipment referred to in subsection (1) shall be determined as if the duty paid value of the machinery and equipment were the value for duty of the machinery and equipment.

(2.1) The amount of the goods and services tax payable in respect of the machinery and equipment referred to in subsection (1) shall be determined as if the value of the goods, for the purposes of section 215 of the *Excise Tax Act*, were the value for duty of the machinery and equipment.

(3) The Minister shall, for the purpose of implementing paragraph 6 of Article 401 of the Canada-United States Free Trade Agreement, establish a list of machinery and equipment in accordance with Annex 401.6 thereof.

(4) The Minister may add machinery and equipment to the list established under subsection (3).

103.(1) Where relief is granted under subsection 74(1) or 75.1(1) or by releasing goods or materials without the payment in full of duties under subsection 79(3), 79.5(3) or 82(2) or section 86 or 90 or 101 and a condition to which the relief is subject is not complied with, the person who fails to comply with the condition

(a) shall, within ninety days after the time of the failure to comply, report the failure to an officer at a customs office; and

(b) is, from the time of the failure to comply, liable to pay to Her Majesty in right of Canada an amount equal to the whole, or to the portion in respect of which the remission or relief was granted, of the duties that would, but for the remission or relief, be payable in respect of the goods or materials, which amount shall, for the purposes of the *Customs Act*, be deemed to be an amount owing to Her Majesty in right of Canada pursuant to that Act.

(1.1) Every person who fails to comply with paragraph (1)(a) is liable to pay a penalty of 6% per year of an amount equal to the duties (other than amounts in respect of duty levied under the *Special Import Measures Act*) that would, but for subsection (1), be payable on the goods for the period beginning on the first day after the report was required to be made pursuant to paragraph (1)(a) and ending on the day the report is made.

## Section III

## Machines et appareils

75.1 (1) Aucun droit de douane n'est exigible sur les machines et appareils qui, à la date de la déclaration en détail faite conformément à l'article 32 de la *Loi sur les douanes*, sont inscrits sur la liste de machines et appareils établie par le ministre en application du paragraphe (3) et bénéficient du Tarif des États-Unis.

(2) Le montant des taxes d'accise exigibles sur les machines et appareils visés au paragraphe (1) est déterminé comme si la valeur à l'acquitté des machines et appareils était leur valeur en douane.

(2.1) Le montant de la taxe sur les produits et services exigible sur les machines et appareils visés au paragraphe (1) est déterminé comme si la valeur des produits pour l'application de l'article 215 de la *Loi sur la taxe d'accise* était leur valeur en douane.

(3) Le ministre établit, pour l'application du paragraphe 6 de l'article 401 de l'Accord de libre-échange Canada — États-Unis, une liste de machines et appareils conformément à l'annexe 401.6 de cet accord.

(4) Le ministre peut ajouter des machines et appareils à la liste établie en vertu du paragraphe (3).

103.(1) En cas d'exonération accordée en application des paragraphes 74(1) ou 75.1(1) ou de dédouanement de marchandises ou de matières et matériels sans le paiement intégral des droits en vertu des paragraphes 79(3), 79.5(3) ou 82(2) ou des articles 86, 90 ou 101, alors qu'une condition à laquelle l'exonération ou le dédouanement est assujéti n'est pas observée, le défaillant :

a) est tenu, dans les quatre-vingt-dix jours suivant la survenance du cas, de le signaler à l'agent, dans un bureau de douane; et

b) est, dès la survenance du cas, redevable, envers Sa Majesté du chef du Canada, de la totalité des droits payables en l'absence de remise ou d'exonération ou de la fraction faisant l'objet de la remise ou de l'exonération; ce montant est, pour l'application de la *Loi sur les douanes*, censé être dû à Sa Majesté du chef du Canada au titre de cette loi.

(1.1) Toute personne qui contrevient à l'alinéa (1)a) est tenue de payer une pénalité de 6% par année sur les droits (sauf un montant afférent aux droits imposés en application de la *Loi sur les mesures spéciales d'importation*) qui seraient exigibles sur les marchandises sans l'application du paragraphe (1), pour la période commençant le lendemain de l'expiration du délai prévu à l'alinéa (1)a) et se terminant le jour où le cas d'inobservation est signalé.

(2) Every person who contravenes paragraph (1)(a) is guilty of an offence punishable on summary conviction and is liable to a fine of not more than two thousand dollars or to imprisonment for a term not exceeding six months or to both.

(3) The Governor in Council may make regulations prescribing

(a) time limits for the application of subsection (1) and the goods or classes of goods in respect of which, or the circumstances in which, such limits shall apply; and

(b) the circumstances in which certain goods would be exempted from the operation of subsection (1), and the goods or classes of goods in respect of which, and the length of time for which and the conditions under which such exemptions shall apply.

106. (1) Any person who is liable under paragraph 103(1)(b) or section 105 to pay an amount (other than amounts in respect of duty levied under the *Special Import Measures Act*) shall pay, in addition to the amount, interest at the specified rate for the period beginning on the first day after the amount became payable and ending on the day the amount has been paid in full, calculated on the outstanding balance of the amount.

(2) Where a person pays an amount owing under paragraph 103(1)(b) or section 105 within 90 days after the day the person became liable to pay the amount, interest on the amount shall not be payable by the person under subsection (1).

(3) Any person who is liable under paragraph 103(1)(b) or section 105 to pay an amount in respect of duty levied under the *Special Import Measures Act* shall pay interest at the prescribed rate in respect of each month or fraction of a month in the period beginning on the ninety-first day after the day the amount became payable and ending on the day the amount has been paid in full, calculated on the outstanding balance of the amount.

107. (1) Any person who, under this Part (other than Division III or III.1 or section 101), is granted a drawback or refund of duties, other than the goods and services tax or duty levied under SIMA, shall be granted, in addition to the drawback or refund, interest thereon at the prescribed rate for a period beginning on the ninety-first day after an application for the drawback or refund is made in accordance with this Part and ending on the day the drawback or refund is granted.

(2) Any person who, under this Part (other than Division III or III.1 or section 101), is granted a drawback or refund of an amount in respect of duty levied under SIMA shall be granted, in addition to the drawback or refund, interest thereon at the prescribed rate in respect of each month or fraction of a month in the period beginning on the ninety-first day after the day an application for the drawback or refund is made in accordance with this Part and ending on the day the drawback or refund is granted.

(2) Toute personne qui contrevient à l'alinéa (1)a) encourt, sur déclaration de culpabilité par procédure sommaire, une amende maximale de deux mille dollars et un emprisonnement maximal de six mois, ou l'une de ces peines.

(3) Le gouverneur en conseil peut, par règlement :

a) soit fixer le délai d'application du paragraphe (1) et désigner les marchandises ou les catégories de celles-ci, soit déterminer les circonstances, visées par le délai;

b) déterminer les circonstances dans lesquelles certaines marchandises seraient exemptées de l'application du paragraphe (1), désigner les catégories de marchandises ainsi exemptées et fixer la durée, ainsi que les conditions, de l'exemption.

106. (1) Quiconque est tenu de payer, en application de l'alinéa 103(1)b) ou de l'article 105, un montant (sauf un montant afférent aux droits imposés en application de la *Loi sur les mesures spéciales d'importation*) verse, en plus de ce montant, des intérêts au taux déterminé, calculés sur les arriérés pour la période commençant le lendemain de l'échéance du montant et se terminant le jour de son paiement intégral.

(2) La personne qui verse un montant dû en application de l'alinéa 103(1)b) ou de l'article 105 dans les quatre-vingt-dix jours suivant l'échéance du montant n'a pas à payer d'intérêts sur ce montant en application du paragraphe (1).

(3) Quiconque est tenu, en vertu de l'alinéa 103(1)b) ou de l'article 105, de payer un montant afférent aux droits imposés en application de la *Loi sur les mesures spéciales d'importation* paie des intérêts au taux réglementaire, calculés sur les arriérés pour chaque mois ou fraction de mois de la période commençant le quatre-vingt-onzième jour suivant l'échéance du montant et se terminant le jour de son paiement intégral.

107. (1) Quiconque reçoit, en vertu de la présente partie (à l'exception des sections III et III.1 et de l'article 101), un drawback ou un remboursement de droits (sauf la taxe sur les produits et services et les droits imposés en application de la *Loi sur les mesures spéciales d'importation*) reçoit, en plus du drawback ou du remboursement, des intérêts au taux réglementaire, calculés sur le drawback ou le remboursement pour la période commençant le quatre-vingt-onzième jour suivant la réception de la demande de drawback ou de remboursement et se terminant le jour de l'octroi de ceux-ci.

(2) Quiconque reçoit, en vertu de la présente partie (à l'exception des sections III et III.1 et de l'article 101), un drawback ou un remboursement de montants afférents aux droits imposés en application de la *Loi sur les mesures spéciales d'importation* reçoit, en plus du drawback ou du remboursement, des intérêts au taux réglementaire, calculés sur le drawback ou le remboursement, pour chaque mois ou fraction de mois de la période commençant le quatre-vingt-onzième jour suivant la réception de la demande de drawback ou de remboursement et se terminant le jour de l'octroi de ceux-ci.

## GUIDELINES AND GENERAL INFORMATION

1. Section 75.1 of the *Customs Tariff* provides for relief from payment of customs duties levied under the *Customs Tariff* and a portion of the excise tax levied under the *Excise Tax Act* otherwise payable on machinery and equipment entitled to the benefits of the United States Tariff, which are included on the list of machinery and equipment established by the Minister. The amount of the Goods and Services Tax (GST) payable will be determined as if the value of the goods were the value for duty, i.e., the GST is not payable on the customs duties relieved.

### Content of the Appendix

2. The Appendix to this Memorandum is the list of goods which are eligible for relief under section 75.1 of the *Customs Tariff*. The list is divided into two schedules:

- (a) schedule I lists the machinery and equipment, along with their tariff items (or, in some cases, headings or sub-headings) and product codes, which are eligible for relief; and
- (b) schedule II lists the tariff items for parts which are eligible for relief when used in the goods listed in Schedule I. Schedule II also lists certain parts, of goods named in Schedule I, which are not entitled to relief.

### Relief by Reference to the Schedules

3. No customs duties are payable in respect of goods listed in Schedule I when:

- (a) they are entitled to the benefit of the United States Tariff,
- (b) they are classified under the heading, sub-heading or tariff item set out opposite the description of the goods in the Schedule, and
- (c) they are accounted for on or after January 1, 1989, unless otherwise specified.

4. No customs duties are payable in respect of parts for goods listed in Schedule I, when:

- (a) they are classified under one of the tariff items listed in Schedule II,
- (b) they are for the goods listed in Schedule I,
- (c) they are not one of the specific exclusions identified in Schedule II, and
- (d) they are accounted for on or after January 1, 1989, unless otherwise specified.

## LIGNES DIRECTRICES ET RENSEIGNEMENTS GÉNÉRAUX

1. L'article 75.1 du *Tarif des douanes* prévoit le dégrèvement des droits de douane exigibles en vertu du *Tarif des douanes* et d'une fraction des taxes d'accise exigibles en vertu de la *Loi sur la taxe d'accise* qui seraient autrement payables sur les machines et les appareils bénéficiant du Tarif des États-Unis et figurant sur la liste établie par le ministre. Le montant de la taxe sur les produits et services (TPS) payable sera déterminé comme si la valeur des marchandises était leur valeur en douane, c'est-à-dire que la TPS ne sera pas payable sur les droits de douane remis.

### Contenu de l'annexe

2. L'annexe de ce mémorandum contient la liste des marchandises admissibles à l'exonération prévue à l'article 75.1 du *Tarif des douanes*. Cette liste comporte deux catégories de marchandises :

- a) la liste I énumère les machines et les appareils admissibles à l'exonération, avec leurs numéros tarifaires (ou, dans certains cas, leurs positions et sous-positions) et leurs codes de produit; et
- b) la liste II énumère les numéros tarifaires des pièces de réparation et de rechange admissibles à l'exonération lorsqu'elles sont destinées à être utilisées sur des marchandises figurant sur la liste I. On trouve aussi dans la liste II, certaines pièces des marchandises énumérées dans la liste I, qui ne donnent pas droit à l'exonération.

### Exonération de droits sur les marchandises figurant sur les listes

3. Aucun droit de douane n'est exigible sur les marchandises figurant sur la liste I :

- a) lorsqu'elles bénéficient de l'application du Tarif des États-Unis,
- b) lorsqu'elles sont classées dans la position, la sous-position ou le numéro tarifaire placé en retrait de leur dénomination, et
- c) qu'elles ont été déclarées à compter du 1<sup>er</sup> janvier 1989, sauf indication contraire.

4. Aucun droit de douane n'est exigible sur les pièces de réparation ou de rechange destinées aux marchandises figurant sur la liste I :

- a) lorsqu'elles sont classées dans l'un des numéros tarifaires figurant sur la liste II,
- b) lorsqu'elles sont destinées aux marchandises figurant sur la liste I,
- c) lorsqu'elles ne font pas expressément l'objet d'une exclusion dans la liste II, et
- d) qu'elles ont été déclarées à compter du 1<sup>er</sup> janvier 1989, sauf indication contraire.

5. Goods described in Schedule I are listed in ascending numerical order by the applicable heading, sub-heading or tariff item (as set forth in the *Customs Tariff*) together with a four digit product identification code.

6. Customs accounting documents referring to goods listed in Schedule I or II are to be prepared as follows:

(a) a one line accounting format is to be used on the form B 3, Canada Customs Coding Form. Coding instructions and form B 3 format examples are contained in Appendix B of Memorandum D17-1-10, Coding of Customs Accounting Documents;

(b) when various goods are imported under the same accounting document, a separate line is to be used for each type of machine, equipment or part;

(c) the Classification Number Field on the accounting document is to be completed by inserting the relevant 10 digit HS classification number followed by inserting the applicable four digit product code in the Annex Code Field. The four digit product code used for goods described in Schedule I appears opposite the description of the goods in that Schedule. The four digit product code to be used for all parts described in Schedule II is 9700.

**Note:** The "Special Authority" Field of the accounting document is not to be used.

(d) In addition to the foregoing, where relief is claimed with respect to eligible parts identified in Schedule II, the relevant 10 digit HS classification number and four digit product code of the goods in Schedule I in which the parts are used must also be quoted in the Commodity Description Field of the form B 3. (In the case of CADEX participants, this information is to be indicated on the invoice or other appropriate part of the release package.)

#### Invoice Description of Goods

7. A full description of the goods being imported must be provided on the accompanying invoices or supporting documents. When goods are identified in the Schedule according to stated specifications (i.e., size, capacity, horsepower, etc.), the relevant specifications are to be included in the invoice description.

5. Les marchandises décrites dans la liste I sont classées en ordre numérique croissant, selon leur position, sous-position ou numéro tarifaire, suivi des quatre chiffres de leur code d'identification (établis dans le *Tarif des douanes*).

6. Les documents douaniers de déclaration en détail s'appliquant aux marchandises énumérées dans la liste I ou II doivent être remplis comme suit :

a) on n'utilisera qu'une seule ligne par produit sur la formule B 3, Douanes Canada — Formule de codage. L'annexe B du mémorandum D17-1-10, Codage des documents de déclaration en détail des douanes, renferme des instructions sur la manière de remplir la formule B 3 ainsi que des exemples;

b) si plusieurs marchandises sont importées au moyen de la même déclaration en détail, on utilisera une ligne pour chaque catégorie de machines, d'appareils ou de pièces de réparation ou de rechange;

c) les 10 chiffres du code SH pertinent devront être inscrits dans la zone du numéro de classement, tandis que les quatre chiffres du code de produit seront inscrits dans la zone des codes d'annexe. Les quatre chiffres du code de produit sont placés en retrait de la dénomination. Pour les pièces de réparation et de rechange décrites dans la liste II, on devra utiliser le code 9700.

**Nota :** Ne rien inscrire dans la zone «Autorisation spéciale».

d) En outre, pour toute demande d'exonération relative à des pièces de réparation et de rechange admissibles de la liste II, on devra aussi inscrire les 10 chiffres du code de classement du SH ainsi que les quatre chiffres du code de produit dans la zone «dénomination» sur la formule B 3. (Pour les utilisateurs du CADEX, ce renseignement doit être indiqué sur la facture ou sur tout autre document accompagnant le colis.)

#### Dénomination des marchandises sur les factures

7. Les marchandises importées devront être décrites en détail sur les factures ou les documents qui accompagnent le colis. Si des renseignements particuliers concernant une marchandise sont inscrits sur la liste (c'est-à-dire dimension, capacité, puissance, etc.), ils devront être mentionnés dans la dénomination sur la facture.

## Interim Accounting Document

8. Where an importer cannot account for the goods in the manner described in paragraph 32(1)(a) of the *Customs Act* for the reason only that the prescribed information is not available, release of the goods and an interim accounting may be made in accordance with the conditions of Subsection 12(1) outlined in the Accounting for Imported Goods and Payment of Duties Regulations, Memorandum D17-1-0.

## Refund, Re-determination and Re-appraisal of Goods

9. If there is a difference of opinion between the importer and Customs Officer with respect to tariff classification, value for duty or origin of the goods, the provisions and time limits of sections 57.1 through 70 of the *Customs Act* will apply. However, for the purposes of paragraphs 58(2)(b), 62(1)(b), 65(1)(b) and subsection 69(1), a refund of the GST may not be provided.

10. Where eligible goods have been accounted for under the proper eligible tariff item and properly under the United States Tariff but relief was not claimed at the time of accounting, a claim for refund of the customs duties may be submitted on Canada Customs — Adjustment Request, form B 2, within the five year time limit prescribed by section 100 of the *Customs Tariff*. Only the completed form accompanied by all required documents is recognized as an application. For further information, please consult Memorandum D17-2-1, Coding of Adjustment Request Forms.

11. Where, however, it is claimed that the goods should have been eligible for relief but were incorrectly accounted for under an ineligible tariff item or under a tariff treatment other than the United States Tariff, no claim for refund may be submitted unless the necessary re-determination of tariff classification or origin of imported goods has been obtained as a result of a request filed within the time limits set forth in sections 60 to 65 of the *Customs Act*. Paragraphs 62(1)(b) and 65(1)(b) do not, however, provide for a rebate of GST.

12. A request for relief under section 75.1 of the *Customs Tariff* may be combined with a request for re-determination under section 60 of the *Customs Act*. In such cases, the form B 2 request is to be submitted within the time limits of section 60 of the *Customs Act*. The GST exclusions referred to in this Memorandum apply.

## Déclaration en détail provisoire

8. Si l'importateur n'est pas en mesure de produire la déclaration en détail conformément aux exigences de l'alinéa 32(1)a) de la *Loi sur les douanes* parce que les renseignements exigés ne sont pas disponibles, les marchandises peuvent être dédouanées sur production d'une déclaration en détail provisoire rédigée conformément aux exigences du paragraphe 12(1) du Règlement sur la déclaration en détail des marchandises importées et le paiement des droits, memorandum D17-1-0.

## Remboursement, révision et réexamen des marchandises

9. S'il y a divergence d'opinion entre l'importateur et l'agent des douanes concernant le classement tarifaire d'une marchandise importée, sa valeur en douane ou son origine, les parties devront s'en remettre aux dispositions et délais prévus aux articles 57.1 à 70 de la *Loi sur les douanes*. Toutefois, aux fins des alinéas 58(2)b), 62(1)b), 65(1)b) et du paragraphe 69(1), la TPS ne peut pas être remboursée.

10. Lorsque des marchandises admissibles ont fait l'objet d'une déclaration en détail en vertu du numéro tarifaire approprié et du Tarif des États-Unis, mais qu'une exonération n'a pas été demandée, au moment de la déclaration une demande de remboursement des droits de douane peut être présentée en remplissant la formule B 2, Douanes Canada — Demande de rajustement, dans le délai de cinq ans prévu à l'article 100 du *Tarif des douanes*. Seule cette formule dûment remplie et accompagnée de tous les documents nécessaires est acceptée comme demande de remboursement. Pour de plus amples renseignements, veuillez consulter le memorandum D17-2-1, Codage des formules de demande de rajustement.

11. Toutefois, lorsqu'un importateur allègue que les marchandises importées auraient dû être admissibles à l'exonération mais qu'elles ont été déclarées par erreur sous un numéro tarifaire ne donnant pas droit à l'exonération ou en vertu d'un document tarifaire autre que le Tarif des États-Unis, il ne peut réclamer un remboursement tant qu'un nouveau classement tarifaire n'a pas été établi ou que l'origine des marchandises importées n'a pas été rectifiée, et ce, à condition que sa demande ait été déposée dans les délais prescrits aux articles 60 à 65 de la *Loi sur les douanes*. Les alinéas 62(1)b) et 65(1)b) ne préviennent pas, cependant, le remboursement de la TPS.

12. Une demande d'exonération peut être présentée en vertu de l'article 75.1 du *Tarif des douanes* en même temps qu'une demande de révision aux termes de l'article 60 de la *Loi sur les douanes*. En l'occurrence, la formule B 2 doit être présentée dans les délais prévus à l'article 60 de la *Loi sur les douanes*. Les exclusions de la TPS dont il est fait mention dans ce memorandum s'appliquent.

13. For the purpose of section 107 of the *Customs Tariff*, interest pertaining to the refund claim will be payable at the prescribed rate for the period beginning on the 91st day after a fully completed refund request together with all supporting documents is received by Customs and ending on the day the refund is granted. Interest should be computed on the amount of duties as defined in the *Customs Act*. Interest Rate for Customs Purposes Regulations, Memorandum D17-1-19, explains the method by which the rates of interest for Customs purposes are determined.

14. (a) A company liable to an amount equal to the customs duties remitted will be liable to pay interest at the specified rate, on the amount to be repaid, for the period beginning the first day after the occurrence, to the day the amount is paid in full, pursuant to subsection 106(1) of the *Customs Tariff*. However, interest will not apply to any amount repaid within the 90-day period.

(b) In addition, if a company does not report an occurrence within 90 days, that company will be liable to pay a penalty of six per cent of the unpaid amount from the 91st day after the occurrence until the report is made to Customs, pursuant to subsection 103(1.1) of the *Customs Tariff*.

13. Aux fins de l'article 107 du *Tarif des douanes*, des intérêts au taux prescrit seront payés sur le montant visé par une demande de remboursement, lorsque cette dernière est correctement remplie et appuyée de tous les documents justificatifs requis. L'intérêt sera calculé à compter du 91<sup>e</sup> jour suivant la réception de la demande jusqu'au jour où le remboursement est payé. Les intérêts seront calculés sur le montant des droits tels que définis par la *Loi sur les douanes*. Le mémoire D17-1-19, Règlement sur le taux d'intérêt aux fins des Douanes, explique la façon de calculer les taux d'intérêt.

14. a) En vertu du paragraphe 106(1) du *Tarif des douanes*, toute compagnie devant remettre un montant égal aux droits de douane sera aussi redevable des intérêts s'y rapportant, calculés au taux déterminé, pour la période allant du premier jour suivant immédiatement l'événement jusqu'au jour où le montant est payé en totalité. Cependant, les intérêts ne s'appliqueront pas à tout montant remboursé dans les 90 jours.

b) De plus, le paragraphe 103(1.1) du *Tarif des douanes* stipule qu'une compagnie qui omet de faire rapport d'un événement à l'intérieur des 90 jours suivant se verra imposer une pénalité de six pour cent du montant à payer, qui sera calculée sur une période s'étendant du 91<sup>e</sup> jour après l'événement jusqu'au jour où le rapport est fait.

8465.96.90	9701	..... SLICING MACHINE (VENEER);
8465.96.90	9702	..... WASTEWOOD CHIPPER, DRUM TYPE;
8465.96.90	9703	..... BAND KNIFE MACHINES (HARD RUBBER);
8465.99.90	9701	..... WOOD SHAPING MACHINES, SINGLE SPINDLE, WITH TRAVEL (STROKE) OVER 5" (125 MM) OR OVER 7.5 H.P.;
8465.99.90	9702	..... WOOD CARVING MACHINES;
8465.99.90	9703	..... WOOD SHAPING MACHINES, DOUBLE SPINDLE, OR TILTABLE SPINDLE, OR SLIDING TABLE, OR FOR CURVED OR ARCHED STRIPS;
8465.99.90	9704	..... WOOD PICKET AND POST POINTER MACHINES;
8465.99.90	9705	..... WOOD MATCHING MACHINES;
8465.99.90	9706	..... WOOD EMBOSsing MACHINES, OTHER THAN CALENDERING OR ROLL- ING TYPE;
8465.99.90	9707	..... PANEL BOARD FORMING STATIONS AND ORIENTED MANUFACTURING EQUIPMENT;
8465.99.90	9708	..... WOOD MITERING MACHINES, GUILLOTINE TYPE;
8465.99.90	9709	..... WOOD BORING MACHINES, MULTI-SPINDLE UNITS WITH SLEWABLE (ROTATING) HEADS;
8465.99.90	9710	..... WOOD BORING MACHINES, SINGLE SPINDLE UNITS, BENCH OR PEDESTAL TYPE, WITH SWINGS LESS THAN 380 MM (15") OR GREATER THAN 460 MM (18");
8465.99.90	9711	..... MOBILE POST AND POLE PEELERS;
8465.99.90	9712	..... WOOD TONGUE DEPRESSOR, ICE CREAM STICK, STIRRING STICK MACHINES;
8465.99.90	9713	..... SHEARS, SPECIFICALLY MADE FOR PRINTED CIRCUIT BOARDS;

## LISTE I

RÉFÉRENCE SH	CODE	DESCRIPTION DES PRODUITS
8465.96.90	9701	..... TRANCHEUSES (POUR CONTRE-PLAQUÉ);
8465.96.90	9702	..... DÉCHIQUETEUSES DE DÉCHETS LIGNEUX, À TAMBOUR;
8465.96.90	9703	..... MACHINES À COUTEAU ALTERNATIF (CAOUTCHOUC DUR);
8465.99.90	9701	..... MACHINES À FRAISER SUR UNE FACE EN BOIS (MONOBROCHE, AVEC DÉBATTEMENT (COURSE), DE PLUS DE 5 PO (125 MM) OU DE PLUS DE 7,5 C.V.);
8465.99.90	9702	..... MACHINES À SCULPTER LE BOIS;
8465.99.90	9703	..... MACHINES À FRAISER SUR UNE FACE EN BOIS (BROCHES DOUBLES OU INCLINABLES, OU À TABLE COULISSANTE, OU POUR BANDES COURBÉES OU ARQUÉES);
8465.99.90	9704	..... MACHINES À FABRIQUER LES PIQUETS DE BOIS ET POTEAUX POUR CLÔTURE;
8465.99.90	9705	..... BOUVETEUSE POUR LE BOIS;
8465.99.90	9706	..... GRAVEUSES EN RELIEF AUTRES QUE DU TYPE CALANDRES ET LAMINOIRS;
8465.99.90	9707	..... MATÉRIEL DE FABRICATION DE PANNEAUX DE BOIS POUR POSTES DE CONFORMATION ET POUR FINS DE CONFORMATION;
8465.99.90	9708	..... MACHINES À ASSEMBLER À MITRE POUR LE BOIS (DE TYPE À GUILLOTINE);
8465.99.90	9709	..... MACHINES À ALÉSER LE BOIS MULTIBROCHES, AVEC TÊTES ORIEN- TABLES (ROTATIVES);
8465.99.90	9710	..... MACHINES À PERCER À BROCHE SIMPLE D'ÉTABLE OU SUR SOCLE, DIAMÈTRE ADMISSIBLE DE MOINS DE 380 MM (15 PO) OU PLUS GRAND QUE 460 MM (18 PO);
8465.99.90	9711	..... ÉCORCEUSES MOBILES POUR PIEUX ET PIQUET;
8465.99.90	9712	..... MACHINES À FABRIQUER LES ABAISSE-LANGUE EN BOIS, LES BÂTON- NETS DE CRÈME GLACÉE ET LES AGITATEURS;
8465.99.90	9713	..... CISAILLES SPÉCIALES POUR PANNEAUX DE CIRCUITS IMPRIMÉS;

## SCHEDULE I

H.S. REFERENCE	CODE	DESCRIPTION OF GOODS
8465.99.90	9714	..... CORE CUT-OFF MACHINES USED IN THE PLASTICS INDUSTRY, INCLUDING MACHINES FOR CUTTING CORES USED IN ROLLS OR REELS OF PLASTIC FILM;
8465.99.90	9715	..... PLASTIC PIPE CUT-OFF SHEARS;
8465.99.90	9716	..... PLASTIC EYEGLOSS FRAME MAKING EQUIPMENT;
8465.99.90	9717	..... HOT WIRE PLASTIC FOAM PROFILE CUTTING MACHINES;
8465.99.90	9718	..... ALIGNMENT SYSTEMS FOR MULTI-LAYER PRINTED CIRCUIT BOARDS;
8465.99.90	9719	..... MOBILE DEBARKERS;
8465.99.90	9720	..... LENS PATTERN MAKING MACHINES;
8465.99.90	9721	..... DICING SAWS;
8465.99.90	9722	..... WOOD TURNING LATHES, AUTOMATIC OR OVER 12" (305 MM);
8466.10.90	9701	..... DRILL CHUCKS FOR PORTABLE POWER TOOLS AND PARTS THEREOF;
8466.10.90	9702	..... HYDRO GRIP TOOL HOLDERS FOR WOODWORKING MACHINE-TOOLS AND PARTS THEREOF;
8466.10.90	9703	..... CHUCKS FOR METAL WORKING MACHINE-TOOLS, MANUAL OR POWER OPERATED, AND PARTS THEREOF;
8466.30.90	9701	..... WHEEL DRESSING ATTACHMENTS FOR METAL WORKING MACHINE-TOOLS AND PARTS THEREOF;
8466.91.90	9701	..... GENERATORS FOR EYEGLOSS LENSES AND PARTS THEREOF;
8466.92.90	9701	..... COPYING ACCESSORY FOR LATHES AND PARTS THEREOF;
8466.92.90	9702	..... TEN-PIN BOWLING BALL DRILLING FIXTURES AND PARTS THEREOF;
8466.92.90	9703	..... STOCK FEEDERS, OVERHEAD ROLLS, AUTOMATIC, AND PARTS THEREOF;

## LISTE I

RÉFÉRENCE SH	CODE	DESCRIPTION DES PRODUITS
8465.99.90	9714	..... MACHINES À DÉCOUPER DES MANDRINS-SUPPORTS (PLASTIQUE) INCLUANT LES MACHINES UTILISÉES POUR COUPER LES MANDRINS-SUPPORTS DES BOBINES DE FILMS;
8465.99.90	9715	..... CISAILLES À DÉCOUPER LES TUYAUX EN PLASTIQUE;
8465.99.90	9716	..... APPAREILS À CONFECTIONNER LES MONTURES DE LUNETTES EN PLASTIQUE;
8465.99.90	9717	..... FRAISEUSES À PROFILER LES PLASTIQUES À CHAUD;
8465.99.90	9718	..... DISPOSITIFS D'ALIGNEMENT POUR PANNEAUX À CIRCUITS IMPRIMÉS MULTI-COUCHES;
8465.99.90	9719	..... ÉCORCEUSES MOBILES;
8465.99.90	9720	..... APPAREILS À CONFECTIONNER LES GABARITS DE LENTILLES;
8465.99.90	9721	..... SCIES DE DÉCOUPAGE DES PUCES;
8465.99.90	9722	..... TOURS À DRESSER LE BOIS, AUTOMATIQUES OU SUPÉRIEURS À 12 PO (305 MM);
8466.10.90	9701	..... MANDRINS DE PERCEUSE POUR OUTILS MOTORISÉS PORTATIFS ET LEURS PARTIES;
8466.10.90	9702	..... PORTE-OUTILS À POIGNÉE HYDRAULIQUE POUR MACHINES-OUTILS À TRAVAILLER LE BOIS ET LEURS PARTIES;
8466.10.90	9703	..... MANDRINS POUR MACHINES-OUTILS À TRAVAILLER LES MÉTAUX MANUELS OU MOTORISÉS ET LEURS PARTIES;
8466.30.90	9701	..... ACCESSOIRES POUR DRESSAGE DE ROUES POUR MACHINES-OUTILS À TRAVAILLER LES MÉTAUX ET LEURS PARTIES;
8466.91.90	9701	..... GÉNÉRATEURS DE VERRES DE LUNETTES ET LEURS PARTIES;
8466.92.90	9701	..... REPRODUCTEUR POUR TOURS ET LEURS PARTIES;
8466.92.90	9702	..... GABARITS DE PERÇAGE DE TROUS POUR BOULES DE QUILLES ET LEURS PARTIES;
8466.92.90	9703	..... ROULEAUX D'ALIMENTATION ET LEURS PARTIES;
